1. Introduction

The objective of this document is to provide an ample range of options for you to fund your complete IIT/NIT/AIIMS/GMC study regardless of how poor you or your family is. You do not need any money to attend any of these elite institutions in India.

Tension mat lo!

We will show you the way!

There are two main options available to you:

1. Grants and scholarships: You should maximize these funding options as they need not be paid back.
2. Loans from NGOs and Banks: These can supplement the scholarship and what your family cannot afford. The all-in cost of attending these institutions for 4-5 years ranges from Rs. 2 Lakhs to Rs. 15.9 Lakhs. Even if this cost is covered 100% by bank loans, it will be easy for you to fully pay off these loans in 1-6 years without much belt-tightening. The bank will provide you at least 15 years to pay back the loan. Tension mat lo!

Virtually all students who graduate from these institutions will have a minimum starting CTC of Rs. 5 Lakhs that is likely to increase at 15% average annually and double to over Rs. 10 Lakhs in five years. If a person applies all income over Rs. 4 Lakhs plus inflation of 8% to pay back the loan, here is what the savings look like each year. If 100% is applied to the loan balance, the loan will disappear in a little over five years:

Year	CTC	Spending	Savings
Start	₹ 5.0 Lakhs	₹ 4.0 Lakhs	₹ 1.0 Lakhs
1	₹ 5.8 Lakhs	₹ 4.3 Lakhs	₹ 1.5 Lakhs
2	₹ 6.6 Lakhs	₹ 4.7 Lakhs	₹ 1.9 Lakhs
3	₹ 7.6 Lakhs	₹ 5.0 Lakhs	₹ 2.6 Lakhs
4	₹ 8.7 Lakhs	₹ 5.4 Lakhs	₹ 3.3 Lakhs
5	₹ 10.1 Lakhs	₹ 5.9 Lakhs	₹ 4.2 Lakhs
6	₹ 11.6 Lakhs	₹ 6.3 Lakhs	₹ 5.3 Lakhs
		Total	₹ 19.8 Lakhs

If one is SC/ST/PwD or has a family income below Rs. 1 Lakh per annum, the maximum fee is less than Rs. 8 lakhs for a full degree and one can easily pay the loan back in four years or less even if there are no grants or scholarships. Relax karo! Tension mat lo!

2.Fee Structure at IITs

The total all-in cost to attend any IIT for four years for a SC/ST/PwD or those having family income below 1 Lakh per annum, ranges from Rs. 4.7 Lakhs to Rs. 7.9 Lakhs. For GEN/OBC families, having income between 1-5 Lakhs per annum, the all-in cost for four years ranges from Rs. 7.3 Lakhs to Rs.10.6 Lakhs. And for GEN/OBC families, having income over Rs. 5 Lakhs per annum, it ranges from Rs. 12.7 Lakhs to Rs.15.9 Lakhs.

The all-in cost has the following four components:

1. Seat acceptance fee*
2. Tuition fee
3. Hostel, mess, and admission fee
4. Floating expenses (includes laptop, books, laundry, travel, etc.)

Components 0 to 3 are required to be paid by students at the time of joining and during the first semester.

After payment of the seat acceptance fee, students are required to pay the remaining fees before the start of each semester. Students also need to arrange their floating expenses.

*The student needs to pay a seat acceptance fee of Rs. 15K (For SC, ST, PwD), and Rs. 35K for all other candidates. (The fee includes the Joint Seat Allocation Authority (JOSAA) processing charges of Rs. 3K). The seat acceptance fee excluding the JOSAA processing charges will be adjusted against the admission fee.

Note: The seat acceptance fee will be covered by Dakshana Foundation, if the scholar cannot arrange funds from friends, family, parents, neighbours, etc. However, it must be returned to Dakshana after the scholar receives a bank loan and/or grant and/or scholarship. The household income must be below Rs. one lakh per annum and fixation of this limit is at the discretion of Dakshana management.

2.1: IIT Tuition Fees

Undergraduate Programmes (B. Tech): The tuition fee for B.Tech programmes at IITs for Indian nationals is approximately Rs. 1 Lakh per semester. However, in all IITs, there is a provision for tuition fee waiver:

a. For Students belonging to GEN / GEN-EWS / OBC-NCL categories:

1. Students with an annual family income less than Rs. 1 Lakh will receive a full tuition waiver.
2. Two-thirds of the tuition will be waived for students whose families earn between Rs. 1 Lakh and Rs. 5 Lakh per year
3. To receive a tuition fee waiver (either full or two-thirds), students must submit the required documents for verification at the time of admission.
4. Additionally, they must submit an agreement signed by both themselves and a parent or legal guardian.
5. Students whose annual family income exceeds Rs. 5 Lakh will not be eligible for a tuition waiver.

b. Students belonging to SC / ST / PWD categories will receive a full tuition fee waiver regardless of their family's annual income.

(iii)	Parents/Guardian's Annual Income from Rs. 1-5 Lakhs	₹ 33.3K
(iv)	Parents/Guardian's Annual Income > Rs.5 Lakh	₹ 1 Lakh

Note: The tuition fee covers only academic expenses and excludes all other costs. The latter is explained in the following pages of this document.

2.3. Floating Expense

During the period of the research, variable expenses are dependent on a variety of factors, such as individual choices, preferences, spending habits, location, and particular circumstances. The majority of a person's expenses are determined by emergencies, entertainment, travel, clothing, and interests.

Although it is difficult to provide a precise estimate of floating expenses, the following table provides an average estimate:

Table 3. Details of Floating Expense

S No	Heads	Amount	Frequency
1	Laundry Expenses & Pocket Money	₹ 2K	Per month
2	Books	₹ 5K	Per semester
3	Travel to Home	₹ 5K	Per semester
	Total	₹ 22K	Per semester
4	Bicycle#	₹ 5K	Only once
5	Laptop*	₹ 45K	Only once
	Total	₹ 72K	

*A Laptop has numerous advantages and is strongly recommended. A laptop can also be useful for conducting research, learning online, and keeping in contact with peers and teachers. In addition, the majority of IITs provide access to advanced technological facilities and resources, such as virtual laboratories, online libraries, and research databases, via laptop. Possessing a personal laptop enables students to fully utilise these resources and to work more efficiently.

Despite its advantages and usefulness, a laptop may not be a requirement for everyone. Some students may prefer to use desktop computers or other devices instead of campus computer facilities. Ultimately, it depends on the circumstances, preferences, and needs of an individual.

#Similarly, purchasing a bicycle is also recommended. Unless one has an unwavering passion for walking, the expansive residential campus of IITs can be intimidating.

3.Fee Structure at National Institutes of Technology (NITs)

The total all-in cost to attend any NIT for four years for a SC/ST/PwD or those having family income below 1 Lakh per annum, ranges from Rs. 3.8 Lakhs to Rs. 6 Lakhs. For GEN/OBC families, having income between 1-5 Lakhs per annum, the all-in cost for four years ranges from Rs. 5.4 - 7.7 Lakhs. And for GEN/OBC families, having income over Rs. 5 Lakhs per annum, it ranges from Rs. 8.8 - 11 Lakhs.

The all-in cost has the following four components:

1. Seat acceptance fee*
2. Tuition fee
3. Hostel, mess, and admission fee
4. Floating expenses (includes laptop, books, laundry, travel, etc.)

Components 0 to 3 are required to be paid by students at the time of joining and during the first semester.

After payment of the seat acceptance fee, students are required to pay the remaining fees before the start of each semester. Students also need to arrange their floating expenses.

*The student needs to pay a seat acceptance fee of Rs. 15,000 (For SC, ST, PwD), and Rs. 35,000 for all other candidates. (The fee includes the Joint Seat Allocation Authority (JOSAA) processing charges of Rs. 3000). The seat acceptance fee excluding the JOSAA processing charges will be adjusted against the admission fee.

Note: The seat acceptance fee will be covered by Dakshana Foundation, if the scholar cannot arrange funds from friends, family, parents, neighbours, etc. However, it must be returned to Dakshana after the scholar receives a bank loan and/or grant and/or scholarship. The household income must be below Rs. one lakh per annum and fixation of this limit is at the discretion of Dakshana management.

3.1: NIT Tuition Fees

Undergraduate Programmes (B. Tech): The tuition fee for B.Tech programmes at NITs for Indian nationals is approximately Rs. 62,500 per semester. However, in all NITs, there is a provision for tuition fee waiver:

a. For Students belonging to GEN / GEN-EWS / OBC-NCL categories:

1. Students with an annual family income less than Rs. 1 Lakh will receive a full tuition waiver.
2. Two-thirds of the tuition will be waived for students whose families earn between Rs. 1 Lakh and Rs. 5 Lakh per year
3. To receive a tuition fee waiver (either full or two-thirds), students must submit the required documents for verification at the time of admission.
4. Additionally, they must submit an agreement signed by both themselves and a parent or legal guardian.
5. Students whose annual family income exceeds Rs. 5 Lakh will not be eligible for a tuition waiver.

b. Students belonging to SC / ST / PWD categories will receive a full tuition fee waiver regardless of their family's annual income.

3.3: Floating Expense

During the period of the study, variable expenses are dependent on several factors, such as individual choices, preferences, spending habits, location, and particular circumstances. The majority of a student's expenses are determined by emergencies, entertainment, travel, clothing, and interests.

Although it is difficult to provide a precise value for floating expenses, the following table provides an average estimate:

Table 8. Average Estimate of Floating Expenses in NITs.

S No	Heads	Amount	Frequency
1	Laundry expenses and pocket money	₹ 2K	Per month
2	Books	₹ 5K	Per semester
3	Travel to home	₹ 5K	Per semester
4	Bicycle#	₹ 5K	Only once

*A laptop has numerous advantages and is strongly recommended. It is useful for conducting research, online learning, and keeping in contact with peers and teachers. In addition, most NITs provide access to advanced technological facilities and resources, such as virtual laboratories, online libraries, and research databases, via laptop. Possessing a personal laptop enables students to fully utilise the available resources at NITs and to work more efficiently.

Despite its advantages and usefulness, a laptop may not be an essential requirement for everyone. Some students may prefer to use desktops or other devices instead of campus computer facilities. Ultimately, it depends on the personal circumstances, preferences, and needs of the student.

#Similarly, purchasing a bicycle is also recommended. Unless one has an unwavering passion for walking, the expansive residential campus of NITs can be intimidating.

Advisory

Dear Students,

We recognise that the IIT/NIT/GMC tuition fee can impose a substantial financial burden on your parents. However, we would like to remind you that it is inappropriate to ask individuals for money to cover your college expenses. Ruyintan E. Mehta, a member of Dakshana's Advisory Board was approached by a student requesting financial assistance in one instance in the past year.

Instead, we recommend that the numerous scholarships that are tailored to your needs and interests may be researched thoroughly. These scholarships cover all expenses, including tuition, books, and living expenses, for qualified students.

6. Case Studies

I. Scholarships:

Five Dakshana scholars qualified for free education at IITs and government medical colleges (GMCs) through the Vahani Scholarship last year.

1. Priyanshu Yadav, an OBC-NCL PwD category candidate and Dakshana scholar from Bengaluru Urban, batch of 2022, was successfully enrolled in a four-year B.Tech. programme at IIT Delhi due to the Vahani scholarship. It covers all of his college expenses, including the counselling fee, semester fee, admission fee, mess charges, and hostel fee, as well as miscellaneous costs such as a laptop, books, mobile phone recharge, and travel to his home state. All of these costs are Rs. 4.09 Lakhs over a four-year period. As a Vahani scholar, Priyanshu obtains full funding for his IIT Delhi studies.

Two additional candidates from the JEE class of 2022 batch are proud recipients of the prestigious Vahani scholarship.

2. Amar Kumar is presently pursuing a B. Tech degree at IIT Guwahati and has no financial concerns.
3. Prakash S. Rathod, who has enrolled at IIT Bombay, is also stress-free because Vahani is covering his educational expense.

Likewise, two students from Dakshana's NEET class of 2022 received a fully funded college education as Vahani scholars:

4. Anjali Kumari, a scholar from Dakshana Valley, has recently enrolled at Fakir Mohan Medical College and Hospital in Balasore, Odisha. Her family's annual income is less than Rs. 1 Lakh placing her within the General-EWS category. As a recipient of the Vahani scholarship, all costs associated with her medical college education are covered in full.

5. After obtaining a Vahani scholarship, Dakshana Valley scholar Shubham Kumar has joined Vardhman Mahavir Medical College and Hospital in New Delhi. Vahani scholarship is solely responsible for funding his education and expenses.

II. Education Loan:

If one does not qualify for a scholarship, one can still obtain an education loan from a variety of banks and financial institutions. After completing one's studies, an individual can repay these loans. A number of students have obtained several education loans.

1. IIT Roorkee accepted Aman Kumar, a Dakshana scholar from the Bangalore Urban 2022 cohort. As his parents' annual income was only Rs. 42,000, he required a total loan of Rs. 5.19 Lakhs to fund his college education over four years. His college's State Bank of India (SBI) branch has granted him a Rs. 5 Lakhs education loan at an annual interest rate of 8% to fund his college fees and other expenses.
2. Arun Kumar Bharti, another Dakshana scholar from the Bangalore Urban 2022 cohort, enrolled at IIT Roorkee. Though his family's annual income was only Rs. 36,000, he managed his financial requirements effectively with an SBI education loan. A total of Rs. 5.61 Lakhs loan was sanctioned to him.

The list is extensive. All Dakshana alumni, whose parents were unable to pay for their college expenses have successfully financed their education through different scholarships, education loans, or both sources.

Pankaj Kumar Gautam, a Dakshana Valley scholar from the 2017 cohort, enrolled in a four-year Mechanical Engineering B.Tech. course at IIT (Indian School of Mines - ISM) Dhanbad. During his four-year course, he incurred a total expense of Rs. 4.6 Lakhs as a member of the SC community. He was able to accumulate Rs. 1.2 Lakhs through the Top-Class Education Scheme for SC students, Rs. 1.5 Lakhs through the Swami Dayanand Education Foundation (SDEF) scholarship, and Rs. 1.9 Lakhs through his own earnings and family contributions.

Please do not hesitate to contact the Dakshana team for additional guidance and support as you explore these options.

We wish you success in your academic endeavours.

Sincerely,

Team Dakshana

7. List of Frequently Asked Questions: IIT

Ques.1: What are the typical costs associated with earning a Bachelor of Technology (B. Tech) from an Indian Institute of Technology (IIT)?

Answer: The tuition fee for a four-year B.Tech. course is Rs. 8 Lakhs at all IITs. The cost associated with semester fees, hostel accommodation, mess charges (meal plans), and other amenities varies between different institutions. Over the duration of four years, the total expenses at all IITs average approximately Rs. 13.5 Lakhs with a maximum of Rs. 15.9 Lakhs at IIT Bhilai and a minimum of Rs. 12.7 Lakhs at IIT (Indian School of Mines - ISM) Dhanbad.

Ques.2: How much money would a student from the SC/ST/PwD community need to pay for pursuing a B.Tech. course from IIT?

Answer: While SC/ST/PwD students are exempted from tuition fees, they are required to pay other IIT-related fees. Over a period of four years, the total expenses for all IITs average approximately Rs. 5.5 Lakhs. For specific information on the cost of attending a specific IIT, please refer to the fee structure provided on pages 4 to 8.

Ques.3: What would be the cost payable by a student from the GEN/EWS/OBC community with an annual family income of less than Rs. 1 Lakh to pursue a B.Tech. degree from an IIT?

Answer: Such students may be exempted or refunded the tuition fee every semester if they submit valid income certificates and ITR documents. However, they will still have to pay other costs associated with attending an IIT, which on average can be approximate Rs 5.5 Lakhs. For specific information on the cost of attending a specific IIT, please refer to the fee structure given on pages 4 to 8.

Ques.4: How much amount would a student from the GEN/EWS/OBC community with a family income between Rs. 1 – 5 Lakhs per annum be expected to pay for pursuing B.Tech. at IIT?

Answer: Students who provide valid income certificates and ITR documents are eligible for a two-thirds tuition fee waiver at the Indian Institute of Technology. The remaining fees, which average approximately Rs. 5.5 Lakhs are payable. Therefore, the total cost over a period of four years would be Rs. 8.1 Lakhs. For specific information on fee structure regarding a particular IIT, please refer to the fee structure chart given on pages 4 to 8.

8. Frequently Asked Questions: NIT

Ques.1: What are the typical costs associated with earning a B.Tech from an NIT?

Answer: The tuition fee for a four-year B.Tech. course is at all NITs is same, i.e., Rs. 5 Lakhs. The costs associated with semester fees, hostel, mess charges (meal plans), and other amenities vary between institutions. All NITs spend approximately Rs. 9.8 Lakhs over the span of four years on each student, with NIT Meghalaya spending the most at Rs. 11 Lakhs and Malaviya National Institute of Technology Jaipur spending the least at Rs. 8.8 Lakhs.

Ques.2: How much money would a student from the SC/ST/PwD community need to earn a B.Tech. degree from an NIT?

Answer: Although exempt from paying any tuition fees, SC/ST/PWD students still need to pay for other expenses associated with attending an NIT. The average expense incurred by all NITs is approximately Rs. 4.8 Lakhs per student for the entire B. Tech course. For specific information on the cost of attending a particular NIT, please refer to the chart on fee structure as provided on pages 9 to 14.

Ques.3: How much would it cost for a student from the GEN/EWS/OBC community whose annual family income is less than Rs. 1 Lakh per year to pursue a B.Tech. from an NIT?

Answer: Such students may be waived or refunded tuition fees every semester, provided they furnish valid income certificates and ITR documents. However, they will still have to pay an average of Rs 4.8 Lakhs for other expenses related to attending the NIT. For detailed information regarding a particular NIT, please refer to the chart structure chart given on pages 9 to 14.

Ques.4: How much amount would a student from the GEN/EWS/OBC community with a family income between Rs. 1 – 5 Lakhs per annum be expected to pay for a B.Tech. from an NIT?

Answer: Two-thirds of the tuition fees at NITs may be refunded or waived for such students who can provide valid income certificates and income tax returns of their parents/ guardians. However, the remaining fees associated with attending an NIT, which average approx. Rs. 4.8 Lakhs per annum, will still apply. Therefore, the total cost payable over four years would be Rs. approx. 6.5 Lakhs.

9. FAQ: MBBS from AIIMS/GMC

Ques.1: How much does it cost to enrol in the Bachelor of Medicine, Bachelor of Surgery (MBBS) programmes at All India Institute of Medical Sciences (AIIMS)?

Answer: An annual tuition fee of approximately Rs. 10K is payable for pursuing an MBBS course from AIIMS. However, the students must cover the cost of accommodation in the hostel, mess charges, books, laundry, transportation home, etc. The total annual cost for all these expenditures is Rs. 92K. Therefore, the total cost of expenditure of the complete MBBS programme at AIIMS is approximately Rs. 4.5 Lakhs. For a thorough comprehension of the fee structure of a particular AIIMS and a detailed breakdown of the additional expenses, please refer to the chart on fee structure provided on pages 15 to 16.

Ques.2: How much does it cost to enrol in the MBBS programme at Government Medical Colleges (GMC)?

Answer: The average cost of tuition fee for the entire MBBS course at a GMC is approximately Rs. 1.6 Lakhs per annum. Furthermore, the students must pay Rs. 92K per annum towards mess charges, books, laundry, and transportation back home, among other expenses. Consequently, the total cost of pursuing an MBBS programme at a GMC is approximately Rs. 5.7 Lakhs. For a comprehensive understanding of the fee structure for a particular GMC and a breakdown of the additional expenses, please refer to the chart on fee structure given from pages 17 to 23.

10. Education Loan

Various banks and financial institutions offer education loans to assist students to pursue higher education in India or from abroad. The loan covers various costs associated with higher education including tuition fees, hostel fees, examination fees, travel, and other related expenses.

The procedure of obtaining an education loan for advanced studies at prestigious institutions such as IITs, NITs, AIIMS, and GMCs is relatively simple. The majority of banks and financial institutions in India offer specialised education loan schemes to meritorious students who wish to pursue higher education at their respective institutions.

The following are some of the most important characteristics of education loans for higher education at IITs, NITs, AIIMS, and GMCs in India:

Eligibility criteria:

To qualify for a student loan, the student must have secured admission to one of the institutions listed above. Additionally, the student must have a solid academic record and a clean financial history.

Loan amount:

The loan amount varies from bank to bank and may depend on factors such as course fees, duration, and the student's financial situation. The average loan amount eligible for higher studies at IITs, NITs, AIIMS, and GMCs ranges between Rs. 20,00,000 and Rs. 50,00,000.

Interest rate:

The interest rate on education loans varies from bank to bank but is typically ranging between 8% and 10% per annum.

Repayment:

The education loan is to be repaid in equated monthly instalments (EMIs) over a maximum of 7 to 15 years. Repayment of EMI begins 12 months after course completion or 6 months after obtaining employment, whichever is earlier.

To apply for an education loan for higher studies at IITs, NITs, AIIMS, and GMCs in India, an applicant must provide proof of admission to the institution, as well as other required documents such as academic records, proof of identity, proof of address, and proof of the parental or legal guardian income. Additionally, the student may be required to submit a statement of purpose that describes the course, career objectives, and how the education loan will assist in achieving these goals.

The procedure for obtaining a loan from the State Bank of India (SBI) is outlined below:

9. Central Sector Scholarship of Top-Class Education for SC students (Ministry of Social Justice and Empowerment, New Delhi)

Eligibility criteria

I. Those SC students who have secured admission in the notified institutions according to the eligibility norms prescribed by the respective institutions will be eligible for the scholarship under the scheme to the extent of the number of scholarships allocated to the institutes concerned. In case the number of students admitted exceeds the number of awards, then the scholarship will be restricted to the top ones in the inter-se merit list. The remaining students from the SC category admitted in the institute in different courses shall be eligible for the Post-Matric Scholarship (PMS) administered by the Ministry as a centrally sponsored scheme, provided such students are otherwise eligible for the said scheme. In case, the institute finds that the number of eligible candidates in the 1st year is less than the number of scholarships allotted to it, the balance of scholarships may be offered to students studying in 2nd, the 3rd and 4th years, etc. on the basis of inter-se merit of previous year's result giving priority to those with a higher number of years left to complete their respective course i.e., 1st year students is to get priority over the 2nd year students and so on.

II. Thirty percent (30%) of slots allotted to the Institute shall be reserved for eligible SC girl students as per their inter-se merit. In absence of a sufficient number of girl students, the slots may be transferred to eligible boy students as per their merit.

III. However, the 30% slots as mentioned above will not include those girl students who are selected on the basis of their performance in the overall merit list of SC students of the Institute.

IV. The ceiling of total annual family income from all sources under the Scheme is Rs. Eight lakhs and the general selection criteria among the eligible candidates of any institution is merit. However, if for the last available slot in an institution, there is more than one student with equal marks, the student with the lowest parental income may be given preference.

V. The benefit of the scheme will not be provided to more than two siblings in a family. The students will submit an affidavit to this effect to the Institute to certify that he/she is not the third sibling of the family who is availing of the benefit under the scheme.

The scholarship is awarded to 10,000 students and the amount of Rs. 80K is granted every year through this scholarship.

INSPIRE scholarship has the following three components:

Scheme for Early Attraction of Talent (SEAT): The principal objective of this scheme is to pull young minds to study science. The recipients are given an INSPIRE Award of Rs. 5K each. This scholarship is given to about one million science practitioners in the age group of 10 to 15 years (Classes 6th to 10th). This scheme also provides summer camps for over 50,000 science scholars of class 11 who can interchange ideas and experience innovations through the INSPIRE Internship.

Scholarship for Higher Education (SHE): This aims to attract creative talents to engage in higher education in science-intensive programs. Along with the scholarship, elected candidates are also provided with in-depth supervision and mentorship. The plan covers 10,000 scholarships for the age group of 17 to 22 years to grant B. Sc and M.Sc courses. The scholarship is worth Rs. 80K per annum.

Assured Opportunity for Research Careers (AORC): This scholarship is for applicants between the age group of 22 and 27 years with the objective to extend the research and development foundation. This scholarship is subdivided into two components. The first one is the INSPIRE Fellowship which offers 1000 fellowships every year to carry out research in the field of applied sciences. The second component is the INSPIRE Faculty Scheme which is offered to 1000 post-doctoral researchers in the age group of 27 to 32 years through a contractual basis.
