

Dear Friends:

Dakshana successfully completed its 16th full year of operations in 2022. Since inception in 2007, the IITs have accepted 3066 Dakshana Scholars (out of a universe of 5316) - a success rate of 58%. Not too shabby - considering that the IITs accept 1.3% of all applicants. Since inception, 5768 of our scholars have been accepted by the IITs, NITs, AIIMS and various medical colleges (out of a total universe of 7271), a success rate of 79%.

In aggregate, in 2023, out of 600 Dakshana scholars who were prepared for the IIT entrance test, 370 made it - a success rate of 62%. In addition, 5 scholars from the 2022 batch who did not make it to IIT the first time, were accepted by the IITs on their 2<sup>nd</sup> attempt in 2023.

It is long overdue to speak about the National Institutes of Technology (NITs). There is an NIT in 31 of the 36 states and Union Territories in India. Many of our scholars who are accepted by the IITs end up declining the IIT seat and going to NIT instead. They typically do so to pursue a more desirable major. The NITs are just a tad below the IITs in quality and reputation. In 2023, 535 of our 600 engineering scholars were offered IIT and/or NIT seats - an 89% acceptance rate! Thus, while our IIT acceptance rate since inception is 58%, well over 90% of our scholars end up at good engineering schools.

From the inception of medical coaching at Dakshana in 2016, out of a universe of 1955 medical stream scholars, 1530 have been accepted at various government medical colleges - a success rate of 78%. In 2023, out of a total of 403 Dakshana medical scholars, at least 295 were accepted by various government medical colleges - a success rate of 73%. Note that we have expanded our definition of a medical seat to include dental and veterinary medicine as these are based on the same medical entrance test and will end up with good incomes.

The eventual success rate of this batch will increase as some scholars go for the 2<sup>nd</sup> attempt in 2024. In addition, 21 scholars from the 2022 batch, who did not make it to government medical colleges the first time, were accepted by government medical colleges on their 2<sup>nd</sup> attempt in 2023.

The All India Institute of Medical Colleges (AIIMS) accepted 162 Dakshana medical scholars in their first attempt at NEET in 2023. AIIMS is the Harvard Medical School of India and accepts 2158 medical students annually (out of over 2 million applicants). The AIIMS acceptance rate is approximately 0.1% - one in a thousand! In

sharp contrast, AIIMS accepted over 40% of our scholars – 400 times the national average! Dakshana scholars were offered 7.5% of all AIIMS seats nationwide! All of our 2023 AIIMS stats are truly off the charts. In 2023, the scholars blew the doors off with their ultra-high success at getting offered AIIMS seats.

AIIMS has accepted 384 of our scholars (out of a universe of 1955) since we started medical coaching in 2016. This represents a success rate of over 20% versus a 0.1% national admittance rate. The number of our scholars who have been accepted by AIIMS has frankly surprised me. It has vastly exceeded my expectations. Congratulations to all the scholars, their families, the faculty, and Team Dakshana for all their hard work and sacrifices.

### **Covid Blues**

The 2023 batch faced the final lingering effects of Covid. For our 2-year program on JNV campuses, the kids received just 17 months of coaching versus the standard 23 months due to the lockdowns. At Dakshana Valley, they received just 9 months of coaching instead of the typical 11½ months. These shortened coaching windows had a direct impact on our success rate and ranks for our scholars. Thankfully Covid is finally behind us. Onward and upward!

### **Scholar Home Visits**

Every year I pick a state in India and visit a few of our alums in that state. These visits serve multiple purposes. First, I get to go see the deep remote hinterlands of the real India, which is awesome. Second, I get to evaluate whether we supported the right families. I randomly pick the state and scholars to visit. This sampling is quite limited, but the anecdotal evidence is very useful. Finally, interacting with the scholars and families in their homes gives me a first-hand feel for the challenges they face and whether Dakshana's income cutoffs are appropriate.

I also try to visit scholar homes the year we finish coaching them. This ensures that I see the family before any financial upgrades have taken place in their lives. The best days of the year for me are the days spent visiting scholar homes. These are incredible field trips and journeys. I have been doing these visits for over 15 years now. With 36 states and Union Territories, there is plenty of ground to cover before I start repeating states.

In 2019, I very much enjoyed my visit to Ladakh and visited some scholars living above 15,000 ft. elevation. Covid interrupted these trips from 2020-22. It was thus very exciting to visit Himachal Pradesh (HP) this year. Among others, I visited Karma

Dolma and her family in Jispa, HP. At over 10,000 ft., Jispa is well off the grid. Karma was prepped for the government medical entrance exam for two years by Dakshana at our JNV Bengaluru Rural Center of Excellence. She did quite well, but just missed the cutoffs. She plans to make one more attempt in a year and is virtually a sure shot to get through.

Although Karma grew up in picturesque surroundings in Jispa, it has been a tough life. Her father passed away when she was 14 and her mother barely ekes out a living of \$120/month for the family from growing vegetables on a small strip of land. Jispa has brutally cold Himalayan winters and just one short farming season. All that will change in a few years. Karma's family has a bright future and I'm glad Dakshana played a small role in it.

### **Dakshana's Spectacular Model and Impact**

Dakshana spends \$3000 on a family earning less than \$1000/year. Five to six years after our intervention, the family income typically exceeds \$5000/year and, after another five years, exceeds \$10,000/year. Dakshana does this at scale. A thousand families a year are currently getting lifted permanently from the shackles of poverty for all future generations. These are miraculous numbers and the social return on invested capital approaches infinity.

The IITs are heavily subsidized by the government and nearly free for our scholars to attend. After they are accepted, the government subsidy is \$15,000 per IIT student per year. Thus our \$3000 is matched 20:1 by our benevolent partner, the Government of India.

But wait, there is more. The JNV schools are virtually free to attend, and the government spends \$2500 per JNV student per year. From 6<sup>th</sup> through 12<sup>th</sup> grade this is an additional \$17,500 spent on each of our scholars. The \$77,500 in matching funds from the government coupled with our critical \$3000 is what makes this all work. Our model works because every dollar Dakshana spends is matched over 25:1 by the Government of India.

I am not done yet. The JNV system administers a language independent IQ test to 3 million 5<sup>th</sup> graders each year. The JNV schools accept less than 45,000 of these kids. It is a 1.5% acceptance rate. Every year Dakshana tests the top 5000 of them after 10<sup>th</sup> grade and another 5000 after 11<sup>th</sup> grade. We accept about 900 from this pool of 10,000 as Dakshana Scholars each year. Our scholars do so well because we are effectively picking 900 kids a year from a pool of 3 million. Our acceptance rate is just 0.03%. That is just 1 out of every 3300 kids!

The system that brings us these precious 900 kids every year costs \$500 million a year to run. The \$17,500 that the government spends on getting each of these 900 kids ready for us is just the tip of the iceberg. If the \$500 million is not spent in finding and nurturing these superstars, Dakshana would fall flat on its face. We would never be able to find these 900 kids on our own. It effectively costs over \$550,000 to find each of these kids! The great Government of India is not just spending \$25 for every \$1 we spend. It spends \$575 million each year to go with our \$3 million in annual outlays. Every dollar we spend is matched over 190:1 by the government!

The real cost of permanently lifting a family from poverty ranges from \$80,000 to \$475,000. Dakshana only spends \$3000 of that amount, and we look great! I have had a few 100 bagger investments over the years. They all pale in comparison to the incredible Social Return on Invested Capital generated by Dakshana. Simply off the charts!

Dakshana also punches well above its weight. While we spend \$3 million a year, we look like a charity that spends \$75 to \$575 million a year – supported by an endowment of \$1.5 to \$11+ billion. There are just a handful of foundations and endowments of that size and scale across the globe.

### **India's Neglected Tribal Population**

India has a tribal population of over 100 million that sits at the very bottom of the economic pyramid. Despite 75 years of affirmative action and quotas, the quality of life for India's large Scheduled Tribe (ST) population is bleak. Affirmative action has worked wonders for India's Scheduled Caste (SC) population. They have been meaningfully uplifted. In fact, some lower castes are now doing so well economically that they ought to be removed from the list.

The programs for the STs have mirrored the ones for the SCs, but they have not worked. The ST population needs are vastly different. A stepstool is needed by India's tribals to board the train of progress. Without the stepstool, tribals are unable to access the vast government affirmative action programs explicitly set up for them. The Modi Government has made it a priority to uplift India's tribals. They have put their money where their mouth is and, for the first time ever, tribal uplifting is a genuine priority for the central government.

A set of residential boarding schools just like the JNV system for India's tribals was setup more than 30 years ago. Unfortunately, the funding level for The Eklavya

Model Residential Schools (EMRS) was pathetic and consequently the results were not great. I visited a few of these schools a few years ago and concluded we would fail spectacularly if we stepped in. That has changed big time.

In 2022, Prime Minister Modi's cabinet allocated over \$3.5 billion dollars towards the construction of 452 new EMRS schools and the upgrade of 211 existing EMRS schools. All 663 of these schools are in districts where the tribal population exceeds 50%. These are some of the most backward and desolate areas of India. A good number of these areas are hotbeds of Naxalite-Maoists separatist movements with little rule of law. Land mines are just one of a plethora of security problems in these areas.

Regardless, the \$3.5 billion shot in the arm will lead to EMRS finally fulfilling its mission. In the past, not even 10% of this amount was allocated to these schools. These 663 schools will look very similar to the 660 school JNV system we already work with. From a Dakshana vantage point, they are much better than the JNV system. The economic strata we would be working with are the poorest of the poor. The Ministry of Tribal Affairs has been very receptive to our proposals. We hope to launch Dakshana's first EMRS center in 2023.

It will take at least 10-15 years before the impact of the increased government spending on these schools is visible. We expect much lower success rates with the EMRS schools for a decade or two. That is ok. We are focused on learning how to maximize success for our EMRS scholars. We'll scale only after we have nailed the success formula.

I am hoping this is the beginning of a wonderful partnership that leads to hundreds of tribal families' life trajectories dramatically improving every year. Stay tuned!

## **2022 Financial Overview**

Dakshana is in very good financial shape. We ended 2022 with nearly \$15 million in liquid assets with virtually no liabilities or payables. In addition, we own the 109-acre Dakshana Valley campus free and clear. The cost basis of Dakshana Valley and all improvements is over \$14 million.

In 2022 our outflows were \$3.2 million, and our donor inflows were \$2.6 million. We had relatively large construction expenses in 2022 related to building a new girl's hostel (dorm) at JNV Pune. In 2023, our construction expenses are expected to be muted and, hopefully, inflows will match outflows.

**Table 1. Financial Overview**

<b>2022 Dakshana Financial Overview</b>		
<b>(in thousands of US\$)</b>		
Cash and Marketable Securities on 12/31/21:	\$	17,235
Scholar Expenses:	\$	(1,830)
Overhead Expenses:	\$	(485)
Construction Expenses:	\$	(844)
Contributions by Donors:	\$	2,554
Donated Corporate Services:	\$	1
Net Investment/Forex Gain (Loss)	\$	(2,001)
Cash and Marketable Securities on 12/31/22:	\$	14,630

While we may appear to be drowning in dollars, the reality is not quite so rosy. We have over \$30 million of capex ahead of us as we scale Dakshana Valley's capacity from 600 to 2600 beds.

Additionally, after Dakshana Valley's capacity rises to 1100, our recurring expenses will rise by at least \$1.3 million/year as we take on 500 more scholars annually. Thus, by 2027, depending on inflows, naming rights granted, and investment results, our liquidity may be far lower. We need your continued support!

### **Direct Scholar Expenses**

In 2022, we spent \$3.2 million on the Dakshana Scholar Program, related corporate overhead, and construction. Of this amount, \$1.8 million was spent directly on the Dakshana Scholar Program. Let's examine these scholar expenses in a bit of detail.

During 2022, we delivered the equivalent of 1249 scholar years of JEE & NEET coaching. Of this number, 604 scholar years were for the 1-year program and 645 scholar years for the 2-year program.

**Table 2. Dakshana Scholar Cost Data**

<b>Year</b>	<b>Cost/Scholar</b>	<b>Scholar Years</b>
2007	\$3,650	176
2008	\$3,086	524
2009	\$2,100	356
2010	\$1,922	270
2011	\$2,475	219
2012	\$2,553	398
2013	\$2,450	576
2014	\$2,053	689
2015	\$2,516	676
2016	\$2,171	761
2017	\$2,283	1045
2018	\$1,889	1116
2019	\$1,558	1223
2020	\$2,009	1075
2021	\$2,035	1039
2022	\$2,476	1249

The average cost to support a scholar across Dakshana’s various programs in 2022 was \$2,476. This number includes an allocation of \$500/scholar for infrastructure. This helps smooth out the cost of land, construction, and other capital expenses. Table 2 shows virtually zero inflation for the last fifteen years. Inflation finally raised its ugly head. Our faculty costs increased significantly as Dakshana responded to dramatic increases in industry-wide faculty compensation after Covid. At the same time, we have reduced costs by outsourcing the smaller locations (like Kottayam and Lucknow) to good local coaching partners.

### **Corporate Overhead Expenses & Fully Loaded Cost/Scholar**

Our corporate overhead in 2022 remained flat at \$0.5 million. It is difficult to accurately segment scholar expenses vs. overhead expenses. For example, most of the management team at Dakshana Valley spends much of their time on faculty and scholar related issues, but they are 100% categorized as overhead. Because of the direct nature of our programs, it may be more useful to look at the bundled cost/scholar in the future. Our overhead/scholar was \$388, and the bundled direct scholar cost, overhead, and construction were \$2,863.

\*next year

\*\*Med School Training began in 2016

Infrastructure cost of \$400/scholar added from 2017 and increased to \$500/scholar from 2020 onwards

This section of my letter used to focus on the cost to Dakshana to get a kid into IIT. We started medical stream prep a few years ago and I already mentioned that many of our scholars who are accepted by the IITs decline the seat and go to a NIT instead. We used to not count would-be dentists or veterinarians as having cleared the medical entrance exams. Since our goal is poverty alleviation, we should be counting them, and we should definitely be counting the NIT grads as Dakshana successes.

Starting this year, we've broadened our definition of success to include all NIT grads, all dentists and all the kids who pursue veterinary medicine. While the direct and overhead costs to support a scholar matter, it is the cost to produce a doctor or an IIT/NIT engineer that is the metric worth tracking. It is the report card on how effective our spending and give-back endeavors truly are.

It used to cost Dakshana around \$7000 to produce a doctor or engineer. This has improved dramatically over the years - it was \$3460 in 2022. The 83% success ratio and loaded cost/scholar for 2022 will improve further after we get the 2<sup>nd</sup> attempt data for these students next year. We are not counting the other 17%, even though many of those kids did end up at a decent engineering college or with some type of science degree that came with a significant boost to their family income.

The \$3460 loaded cost of a "successful scholar" compares very favorably to the all-in cost of each scholar of \$2863.

### **The Pabrai Family Giving Plan**

One of the best decisions I have made with Dakshana is to embrace formula-based giving from the outset. Like almost everything else of consequence in my life, the formula was cloned. In 2006, Warren Buffett committed to annually giving away 5% of his Berkshire Hathaway shares to the Gates Foundation and the various foundations run by his kids.

For example, if he started with 400,000 shares of Berkshire, he would be giving away 20,000 shares the first year, 19,000 the second year, 18,050 shares the third year and so on. Because Berkshire is highly likely to increase its intrinsic value by more than 5% a year, not only would his giving increase over time, so would his net worth. *It is brilliant!* Warren could live to be 120 and still have shares to give away.

Channeling Buffett, we decided that when our net worth exceeded \$50 million, my family would give 2% of our net worth to Dakshana every year. We later tweaked the formula to increase the giving to 3% over \$100 million, 4% over \$150 million and 5% over \$200 million. The 2-5% giving formula coupled with our exceptional donor base and prudent investing has allowed Dakshana to scale up while building a robust corpus. In the last 15 years my family has given more than \$27 million to Dakshana - and it felt like a non-event! Dakshana received significant sums and we never missed the money.

### Dakshana’s Wonderful Family of Donors

We received \$2.6 million in donations from our generous donors. I am pleased to report that these gifted funds were used to buy books, scholar nutrition, create/improve classroom and dorm infrastructure and pay for coaching faculty for our scholars. I am grateful to our patrons for their generosity and wisdom.

And now, it’s time for a short commercial break. You can make a gift to Dakshana here: <https://dakshana.org/donate/>. We accept all major credit cards, Paypal and Bitcoin. You can also send us a check (in US dollars, Canadian dollars or Indian

rupees). And your gift is fully tax deductible. We can also set up automatic recurring monthly charges to your credit card. \$210 or C\$275 a month for 12 months fully supports one scholar. You can even pick the scholar you'd like to support.

Many employers sponsor matching gift programs that will match your charitable donations, including those made to Dakshana. Quite a few of our existing donors have taken advantage of these generous policies, including those at Google, Microsoft, Abbott Labs, EclinicalWorks, Genentech, ServiceNow, Intel, etc. To find out if your company sponsors a matching gift program, please check out this link: [Employer Matching Programs](#).

Let's not forget all the goodies Dakshana offers for your generosity - naming rights, Charlie Munger busts and wallets with stock tips!

## Naming Rights

Dakshana would love to name a building or two after your parents or hero. You get to honor their memory and help a great cause. We have already given the naming rights to eleven structures. They are going fast. The deal is simple. Paying half the construction cost gets you the naming rights for the structure/road/lake of your choice. This won't be the case in a few years. Channeling MLK, now is the time to honor your mom or dad. Now is the time! Just drop me a note at [mpabrai@dakshana.org](mailto:mpabrai@dakshana.org). Let's make a deal!

### **Donate your Beater Car. We'll even pick it up!**

Through our partnership with CARS ([careasy.org/nonprofit/dakshana-foundation](http://careasy.org/nonprofit/dakshana-foundation)) Dakshana can accept donations of cars, boats, RVs, and other property donations anywhere in the United States. It is simple. You get a tax deduction. CARS picks up the vehicle (even if it does not start!). Please call CARS at +1.855.500-RIDE or +1.855.500-7433, or us at +1.512.999.7110, or email Kimberly Engleman ([ke@dakshana.org](mailto:ke@dakshana.org)) for more information.

The donated item will be picked up from a location of your choice at a time of your choosing at no cost to you. You will receive the maximum legal tax deductions and possibly a partial cash payment. This is a great way to get rid of that beater car and help a great cause!

### **Ebay Lunch Auction**

In the true spirit of market-driven auctions, the bidding started at \$0.01, with no minimum. I very much enjoyed breaking bread with the 2022 lunch winner (who has chosen to remain anonymous). The winner of the 2021 lunch auction was Adam Mansuri from Austin. I met Adam and his wonderful wife Lindsey for lunch at Perry's Steakhouse in downtown Austin. It went so well that we've met a few more times since then. Adam

(and our 2022 lunch winner) got my not-so-old wallet as well. It is rumored that there was a stock tip in there (with no reps and warranties!).

**Zoom Video Call Auction**

The difficulty with the lunch auction is that meals can only take place in limited geographies. Thus, a few years back we started auctioning off an annual conference call with me with all proceeds going to Dakshana. The Zoom call format allows anyone from anywhere on the planet to bid and participate.

This auction is designed to level the geographic playing field. Anyone can bid on Ebay. The Zoom video call, which will be arranged at a mutually agreeable time, can have up to seven participants. I will give a stock tip on the call (with no reps or warranties!) and will answer any questions related to that stock tip (or anything else the participants would like to discuss). The only topic off limits is discussions on any current portfolio holdings.

These lunches and zoom calls have led to my meeting some wonderful folks over the years over the years. Many have become friends and some of these have become especially close friendships. I am grateful for all the benefits I have received from these interactions and relationships. It is a very high-quality crowd.

### **Munger Bust Auction**

As you have probably correctly concluded, I am an auction junkie and, over the years, off and on, we have auctioned off a few Charlie Munger busts on Ebay. In 2020 we made it an annual event, which will last while we have Charlie Munger busts to auction off. The busts were made by a gifted bust maker in Rajasthan, India. He is close to retiring and we ordered a few more Munger busts. We've also commissioned him to make a few Warren Buffett busts for the very first time. One of these rare Charlie busts is installed at Berkshire Hathaway headquarters in Omaha and Warren loves it.

The terms are the same as all our other auctions. Bidding starts at \$0.01 and there is no reserve price. In addition, free global shipping (usually by Fedex) is included.

**Table 8. Recent results of the Charlie Munger Bust Auction on eBay**

Total	<u>\$45,300</u>	<u>\$45,300</u>	

### **The Dakshana Endowment**

In 2013, at the suggestion of Advisory Board member Ruyintan “Ron” Mehta, we started the Dakshana Endowment. Since then, Dakshana’s donors have had a choice. They can designate their contributions to be used immediately on our Dakshana Scholar Program or it can go into the endowment. Only funds explicitly specified for the endowment go in there. Funds in the endowment are invested in a highly concentrated manner and managed by yours truly. And at the end of every year, 5% of the endowment’s value is spent towards the Dakshana Scholar Program in the following year.

Ron seeded the endowment with a generous \$50,000 contribution. The cost to support one scholar is \$2500 and Ron figured that, right off the bat, the endowment would be able to fully support at least one new scholar completely every year. Ron will be happy to note that after just five short years the annual giving from the endowment has typically exceeded his initial seed contribution!

We direct all the proceeds from the various auctions to the endowment. The good news is that the endowment is off to a robust start and is already able to support around 27 scholars a year *into perpetuity*.

Most of Dakshana's management team and many faculty members are now our own alums. It has helped establish a wonderful culture at Dakshana. Coupled with the 25:1 (or 190:1) match by our benevolent partner, the Government of India, we continue to hit it waaay out of the park. Thanks for your continued interest and support.

Warmly,
