Dear Friends:

Dakshana successfully completed its 18th full year of operations in 2024. Since inception in 2007, the IITs have accepted 3770 Dakshana Scholars (out of a universe of 6390) – a success rate of 59%. Not too shabby – considering that the IITs accept just 1.2% of all applicants. Since inception, 7343 of our scholars have been accepted by the IITs, NITs, AIIMS and various medical colleges (out of a total universe of 9203), an astounding 80% success rate!

In aggregate, in 2025, out of 548 Dakshana scholars who were prepared for the IIT entrance test, 344 made it – a success rate of 63%. In addition, nine scholars from the 2024 batch who did not make it to IIT the first time, were accepted by the IITs on their 2nd attempt in 2025.

Many of our scholars who are accepted by the IITs end up declining the IIT seat and going to NIT (National Institute of Technology) instead. They typically do so to pursue a more desirable major. The NITs are just a tad below the IITs in quality and reputation. In 2025, 455 of our 548 engineering scholars were offered IIT and/or NIT seats – an 83% acceptance rate! Thus, while our IIT acceptance rate since inception is 59%, well over 80% of our scholars end up at excellent engineering schools.

This year's 83% engineering acceptance rate is actually understated because it includes the results from two of our campuses where we knew at the outset that the success rate would be anaemic.

Eklavya Model Residential Schools (EMRS) are magnet schools for India's scheduled tribes community. Dakshana expected a very low success rate with this pilot program because these schools, while improving every year, are well below the Jawahar Navodaya Vidyalaya (JNV) school system in academics. We like the social justice aspect of this initiative and were very willing to have our success percentage go down as a result. Of the 19 EMRS students Dakshana coached for the IIT entrance exam, three were accepted by the IITs and one was accepted by NIT.

Our JNV Bengaluru Rural campus is focused on coaching girls for the IIT entrance exam. The Dakshana standard selection cutoff was lowered significantly for this campus and we knew our success rate would be low. Of the 40 girls Dakshana coached at Bengaluru Rural, 12 were accepted by the IITs and another 11 were accepted by the NITs.

If we exclude these two campuses, our success rate for IITs in 2025 is 67% and IIT/NIT is 88%. It was a no-brainer for us to take the hit on our success numbers for these excellent initiatives.

From the inception of medical coaching at Dakshana in 2016, out of a universe of 2813 medical stream scholars, 2185 have been accepted at various government

medical colleges – a success rate of 78%. In 2025, out of a total of 509 Dakshana medical scholars, at least 338 were accepted by various government medical colleges – a success rate of 66%.

The eventual success rate of this batch will increase as some scholars go for the 2nd attempt in 2026. In addition, 23 scholars from the 2024 batch who did not make it to government medical colleges the first time, were accepted by government medical colleges on their 2nd attempt in 2025.

The All India Institute of Medical Colleges (AIIMS) accepted 109 Dakshana medical scholars in their first attempt at NEET in 2025. AIIMS is the Harvard Medical School of India and accepts 2257 medical students annually (out of over 2.2 million applicants!). In 2025, Dakshana Scholars took 5% of all AIIMS seats! AIIMS has accepted 586 of our scholars (out of a universe of 2813) since we started medical coaching in 2016. This represents a success rate of over 21% versus a 0.1% national admittance rate – over 200 times the national average! All of our AIIMS stats are truly off the charts. The scholars have taken the cover off the ball with their ultra-high success at getting offered AIIMS seats.

Congratulations to all the scholars, their families, the faculty, and Team Dakshana for all their hard work and sacrifices.

Scholar Home Visits

Every year I pick a state in India for my scholar home visits. I have been doing these visits for over 16 years now. These field trips independently allow me to evaluate whether we supported the right families. Interacting with the scholars and their families in their homes gives me a first-hand feel for the challenges they face and whether Dakshana's income cutoffs need tweaking. These scholar home visits take place just before the kids start college. This ensures that I see the family before any financial upgrades have taken place in their lives. This sampling is quite limited, but the anecdotal evidence is invaluable.

An added bonus is that I get to visit the diverse remote hinterlands of the real India. The days I spend visiting scholar homes are the best days of the year for me.

Red Earth and Pouring Rain

This year, I visited Nashik District in the State of Maharashtra and met with Dakshana Scholar Chetan Khadam and his family. The monsoons were in full swing, and the valleys and hills around Chetan's home looked magnificent. Chetan lives in Berwal village, about seventy kilometers from Nashik city.

Chetan comes from a tribal family engaged in farming and construction labor. Somehow, the family survives on less than $2 a day. Chetan has done well enough to get a Government Medical College seat. He has an intense resolve to practice

medicine in his village. There are no doctors or clinics within 30 kilometers of his home, and he is acutely aware of the healthcare challenges in his community.

Over the last few years, Dakshana has invested heavily in outreach to find exceptionally talented kids from outside the JNV magnet school system. The JNVs are a perfect fit for Dakshana, but it just scratches the surface. There are millions of brilliant kids who do not even apply to get admitted to a JNV. Chetan is not from JNV. He is from EMRS, which I mentioned earlier. Even though he tried on his own, he was not able to get a medical school seat after high school. He was selected by Dakshana for our one year medical coaching program at Dakshana Valley and he made it!

Dakshana's Traveling Salesmen

Dakshana hit the motherlode right from the outset when it started by working with the JNVs - the world's largest magnet school system. From a pool of 2.5 million annual applicants, the JNV system accepts 47,000 super smart 6th graders for its 643 campuses each year. Over the last 18 years, Dakshana has developed a solid competency in identifying the top 700 kids from this exceptional pool and helping make them into great engineers and doctors. In effect, we are picking about 700 kids each year from an original pool of 2.5 million! The best of the best!

However, we have to step out of this wonderful cocoon to grow and scale Dakshana and increase our impact.

Our one year coaching program is run only at Dakshana Valley, where the current capacity is 600 scholars. In the Class of 2025, 179 of these 600 kids came from non-JNV school systems across India. It has taken tremendous yeoman efforts over the last several years to visit hundreds of non-JNV magnet and reputed government schools across India to find these kids. We send thousands of pieces of direct mail and posters every few months. We make thousands of calls to schedule visits and make presentations to the students, teachers and administrators. Most schools have never ever respond to any of our efforts.

Our Head of Outreach spends well over 50% of his days on the road. It is normal for him and our volunteer alums to travel hundreds of kilometers, show up at the gate of a school that has never responded to us, request a meeting with the principal and be turned away. It is just like a business trying to sell its wares. We expected plenty of rejection and have persisted through it all. What we are trying to sell is an incredible product - for free! No strings attached. Effective philanthropy is very hard.

The cost for us to find a Dakshana Scholar from the JNV system approaches zero. The outreach to other school systems is expensive. So far, it has worked out to about $400 for each non-JNV scholar we have accepted since this outreach began in 2021. Our all-in cost per scholar is about $3200. This outreach increases it by 12.5%. The

good news is that our social return on investment (SROI) is so high that we can easily absorb these higher costs.

Most of Dakshana's future scholar growth will likely come from non-JNV scholars and, as we penetrate deeper into this pool, I fully expect our per scholar finding cost to keep rising in the near term. It is very much worth it.

A Tiny Stream Turns Into a Mighty River!

The state of Madhya Pradesh (MP) has run a small magnet school program known as Super 100 since 2019. The state originally accepted one hundred 11th graders as MP Super 100 scholars. The program has grown, and they now accept a total of 400 kids a year. The acceptance rate is under 4%. Not as good as the JNVs, but it works for us.

The Super 100 program was receptive to our outreach in 2021 and we accepted our first scholar, Ms. Manisha Patidar, from the MP Super 100 program for medical coaching in 2022. She started med school in 2023 and went back to her MP Super 100 campus to present Dakshana's amazing program to her juniors. Her efforts led to two more scholars being accepted by Dakshana in 2024 and 22 in 2025! Dakshana is now well known to the MP Super 100 kids and Dakshana is likely to accept similar or higher numbers in the years ahead. If we are able to get 20 or more scholars per year from the MP Super 100 program, it is a home run!

Our future outreach cost for the MP Super 100 program will be quite low in the future as all future batches are likely to be familiar with Dakshana due to the virtuous cycle of success stories and continued alum visits. We hope to tap into dozens of similarly rich veins of talent across the country as we grow and scale.

YouTube & Dakshana: 1+1 = 11

One of the two scholars we accepted in 2024 from the MP Super 100 is Ms. Muskan Soni from Mirgauti village, which is in a remote and desolate corner of the state. After getting coached by Dakshana, Muskan was accepted by Mahatma Gandhi Memorial Medical College in Indore (MP) in 2025.

In 2017, when Muskan was 10 years old, her father was paralyzed on the right side of his body as a side effect of undiagnosed high blood pressure, diabetes and a lack of proper medical facilities in their village. He lost his ability to provide for his family.

The family was left in dire straits with no income and seven mouths to feed. Muskan's mother had an old sewing machine and taught sewing to Muskan's two older sisters. The sisters supplemented these basic tailoring skills with countless hours of watching tailoring videos on YouTube. Both became expert tailors and started offering custom tailoring services in the village. Their uncle bought them a 2nd sewing machine so both sisters could work at the same time. The girls have been able to increase their earnings every year, but it is still only

a trickle. The family somehow survives on the less than $2 a day that the girls are able to earn. During the wedding season, this increases to about $4 a day.

The girls have been able to fix both sewing machines themselves whenever they have issues. This too they learnt from watching YouTube videos. Long live YouTube!

Tailoring needs math skills and an above average IQ. Dakshana's smartest scholar ever is Ashok Kumar Talapatra. Ashok was ranked 63 (out of over a million kids) in the IIT entrance exam and works for Google in Switzerland. Ashok's father is also a tailor, and Ashok is a math whiz. Muskan and her sisters are smart because the parents are smart. However, only Muskan has been able to break through and will become a doctor in a few years. She is the hope of the entire family and has the drive and tenacity to get everyone to the promised land.

The word Muskan means smile. When I recently saw pictures of Muskan and her sisters, what struck me most was the Mona Lisa-like smile each of them had. Beautiful half smiles that masked some of their struggles. In a few years, their daily battles to survive will be over and I look forward to seeing their full, unrestrained smiles.

FCRA Blues

The Foreign Contributions (Regulation) Act (FCRA) in India controls foreign inflows to India-based NGOs. Dakshana India Education Trust Fund (DIETF) is a registered nonprofit in India that received its FCRA permissions quite a while back. These permissions expire every five years. Our most recent permission expired on June 8, 2024 and renewal was denied.

We have been in constant contact with senior FCRA officials, and we believe (fingers crossed!) our permission will be reinstated relatively soon. My dad's golden rule in business was to hope for the best but plan for the worst. We applied this dictum right after we were unable to send funds to Dakshana India. The India team went on a war footing to raise funds from corporate donors in India.

It was quite an uphill task as over 2/3 of our funds came from outside India. We downsized Dakshana by transferring some campuses to other NGOs. Both efforts were successful. With a heavy heart, we moved four of our smallest subscale centers to other NGOs to run and manage. These centers were our highest cost centers and, in an ideal world, we would have consolidated all of them into a single larger campus. The team was also successful in dramatically increasing contributions from India-based donors.

If you are reading this and are based in India, please send us whatever you can spare at the earliest: www.dakshana.org/donate. Note that the FCRA issue does not affect

donors anywhere contributing to Dakshana. The Dakshana Foundation in the US and Dakshana Canada can receive funds from donors worldwide. We just cannot send those funds to Dakshana India until our FCRA permission is renewed.

All non-India based donors can rest assured that your funds are safe and will be deployed on priority once our FCRA permission is renewed.

2024 Financial Overview

Dakshana is in very good financial shape. We ended 2024 with $29 million in liquid assets and virtually no liabilities or payables. We own the 109-acre Dakshana Valley campus free and clear. The cost basis of Dakshana Valley and all improvements is over $14 million. With over $41 million in assets and virtually no liabilities, Dakshana is in the best financial shape it has ever been in.

Table 1. Financial Overview

2024 Dakshana Financial Overview
(in thousands of US$)

Cash and Marketable Securities on 12/31/23:	$	21,508
Scholar Expenses:	$	(2,182)
Overhead Expenses:	$	(623)
Construction Expenses:	$	(386)
Contributions by Donors:	$	4,750
Net Investment/Forex Gain (Loss)	$	5,753
Cash and Marketable Securities on 12/31/24:	$	28,819

While we may appear to be drowning in dollars, the reality is not quite so rosy. We have over $30 million of capex ahead of us as we scale Dakshana Valley's capacity from 600 to 2600 beds.

Additionally, after Dakshana Valley's capacity rises to 1100, our recurring expenses will rise by over $1 million annually. Thus, by 2028, depending on inflows, our liquidity may be far lower. We need your continued support!

Direct Scholar Expenses

In 2024, we spent about $3.1 million on the Dakshana Scholar Program, related corporate overhead, and construction. Of this amount, $2.2 million was spent directly on the Dakshana Scholar Program. Let's examine these scholar expenses in a bit of detail.

During 2024, we delivered the equivalent of 1426 scholar years of coaching. Of this number, 600 scholar years were for the 1-year program and 826 scholar years for the 2-year program.

The average cost to support a scholar across Dakshana's various programs in 2024 was $2654. This number includes an allocation of $500/scholar for infrastructure. This helps smooth out the cost of land, construction, and other capital expenses.

In the last 14 years, inflation has been rampant in India. I am thus very pleased with our $2654 all-in cost to support a Dakshana Scholar in 2024 vs. $2100 in 2009. Economies of scale, having our own faculty and delivering over half of the coaching at our own campus have all played a role in keeping our costs ultra-low.

Table 2. Dakshana Scholar Cost Data

Year	Cost/Scholar	Scholar Years
2007	$3,650	176
2008	$3,086	524
2009	$2,100	356
2010	$1,922	270
2011	$2,475	219
2012	$2,553	398
2013	$2,450	576
2014	$2,053	689
2015	$2,516	676
2016	$2,171	761
2017	$2,283	1045
2018	$1,889	1116
2019	$1,558	1223
2020	$2,009	1075
2021	$2,035	1039
2022	$2,478	1246
2023	$2,323	1315
2024	$2,654	1426

As a point of comparison, a year of IIT entrance exam coaching in Kota, Rajasthan inclusive of room and board and study materials would be north of $5000 vs. almost half of that at Dakshana. And that delta ignores the 80+% success rate at Dakshana versus well under 10% for even the very best for-profit coaching institutes!

The coaching institutes have to be very competitive on fees and success ratios to survive. It is thus all the more remarkable that Dakshana, while facing no competitive market pressures, is far more efficient at delivering IIT and medical

coaching than the best/largest for profit coaching centers. It is our relentless pursuit of delivering the highest possible social returns on invested capital that has led to these great outlier efficiencies.

Corporate Overhead Expenses & Fully Loaded Cost/Scholar

Our corporate overhead in 2024 was $623,000. It is difficult to accurately segment scholar expenses vs. overhead expenses. For example, most of the management team at Dakshana Valley spends much of their time on faculty and scholar related issues, but they are 100% categorized as overhead. Our overhead cost are meaningfully overstated. Because of the direct nature of our programs, it may be more useful to look at the bundled cost/scholar in the future. Our overhead/scholar was $437, and the bundled direct scholar cost, overhead, and construction was $3,091 in 2024. Permanently lifting a family from poverty for under $3100 is astounding.

*next year

**Med School Training began in 2016

Infrastructure cost of $400/scholar added from 2017 and increased to $500/scholar from 2020 onwards

It used to cost Dakshana around $7000 to produce a doctor or engineer. This has improved dramatically over the years – it was $4120 in 2024, with the elimination of our four highest cost campuses.

The 75% success ratio and loaded cost/scholar for 2024 will improve further after we get the 2nd attempt data for these students next year. We are not counting the other 25%, even though many of those kids did end up at a decent engineering college or with some type of science degree that led to a significant boost to their family income.

One of the best decisions I have made with Dakshana is to embrace formula-based giving from the outset. Like almost everything else of consequence in my life, the formula was cloned. In 2006, Warren Buffett committed to annually giving away 5% of his Berkshire Hathaway shares to the Gates Foundation and the various foundations run by his kids.

For example, if he started with 400,000 shares of Berkshire, he would be giving away 20,000 shares the first year, 19,000 the second year, 18,050 shares the third year and so on. Because Berkshire is highly likely to increase its intrinsic value by more than 5% a year, not only would his giving increase over time, so would his net worth. *It is brilliant!* Warren could live to be 120 years old and still have shares to give away.

Channeling Buffett, we decided that when our net worth exceeded $50 million, my family would give 2% of our net worth to Dakshana every year. In the last 18 years my family has given more than $28 million to Dakshana - and it felt like a non-event! Dakshana received significant sums and we never missed the money.

Dakshana's Wonderful Family of Donors

We received $4.75 million in donations from our generous donors. I am pleased to report that these gifted funds were used to buy books, scholar nutrition, create/improve classroom and dorm infrastructure and pay for coaching faculty for our scholars. I am grateful to our patrons for their generosity and wisdom.

And now, it's time for a short commercial break. You can make a gift to Dakshana here: www.dakshana.org/donate/. We accept all major credit cards, Paypal and Bitcoin. You can also send us a check (in US dollars, Canadian dollars or Indian rupees). And your gift is fully tax deductible. We can also set up automatic recurring monthly charges to your credit card. $225 or C$310 a month for 12 months fully supports one scholar. You can even pick the scholar you'd like to support.

Many employers sponsor matching gift programs that will match your charitable donations, including those made to Dakshana. Quite a few of our existing donors have taken advantage of these generous policies, including those at Google, Microsoft, Abbott Labs, EClinicalWorks, Genentech, ServiceNow, Intel, etc. To find out if your company sponsors a matching gift program, please check out this link: Employer Matching Programs.

Let's not forget all the goodies Dakshana offers for your generosity – naming rights, Charlie Munger busts and wallets with stock tips!

Naming Rights

Dakshana would love to offer you the opportunity to name a building or two in honor of your parents or a hero. This allows you to both commemorate their memory and support a worthy cause. We've already granted naming rights to 15 structures, and they're going quickly. The process is straightforward: by covering half the construction cost, you secure the naming rights for a structure, road, or lake of your choice. This opportunity won't be available for long. In the spirit of MLK, now is the time to honor your loved ones. Act now! Drop me a note at mpabrai@dakshana.org. Let's make it happen!

Donate your Beater Car. We'll even pick it up!

Through our partnership with CARS (careasy.org/nonprofit/dakshana-foundation) Dakshana can accept donations of cars, boats, RVs, and other property donations anywhere in the United States. It is simple. You get a tax deduction. CARS picks up the vehicle (even if it does not start!). Please call CARS at +1.855.500-RIDE (+1.855.500-7433), or us at +1.512.999.7110, or email Kimberly Engleman (ke@dakshana.org) for more information.

The donated item will be picked up from a location of your choice at a time of your choosing at no cost to you. You will receive the maximum legal tax deduction and possibly a partial cash payment. This is a great way to get rid of that beater car and help a great cause!

Ebay Lunch Auction

Our 17th annual lunch/conference call auctions will be held in September 2025 on Ebay. In the true spirit of market-driven auctions, the bidding will start at $0.01 for both, with no minimum. The lunch auction winner will get my not-so-old wallet as well. It is rumored that there may be a stock tip in there (with no reps and warranties!).

The guidelines remain the same. The winner can bring up to seven folks with him or her. The lunch will take place in Austin, Texas, or in any of India's metro cities, or another mutually agreeable alternate location. Anything is fair game to discuss, except specific stocks. Of course, you can ask about the stock tip. And I'll personally pick up the tab. In the true spirit of market-driven auctions, the bidding will start at $0.01, with no minimum.

I very much enjoyed breaking bread with the 2024 lunch winner Sid Goel and his wonderful wife Hanna in Austin. Sid got my not-so-old wallet as well. It is rumored that there was a stock tip in there (with no reps and warranties!).

Zoom Video Call Auction

The difficulty with the lunch auction is that meals can only take place in limited geographies. Thus, a few years back we started auctioning off an annual conference call with me with all proceeds going to Dakshana. The Zoom call format allows anyone from anywhere on the planet to bid and participate.

This auction is designed to level the geographic playing field. Anyone can bid on Ebay. The Zoom video call, which will be arranged at a mutually agreeable time, can have up to seven participants. I will give a stock tip on the call (with no reps or warranties!) and will answer any questions related to that stock tip (or anything else the participants would like to discuss). The only topic off limits is discussions on any current portfolio holdings.

These lunches and Zoom calls have led to my meeting some wonderful folks over the years. Many have become friends and some of these have become especially close friendships. I am grateful for all the benefits I have received from these interactions and relationships. It is a very high-quality crowd.

Munger and Buffett Bust Auctions

Table 8. Charlie Munger Bust Auction Results

Year	Winning Bid	Actual Proceeds	Winner

Total	$103,200	$103,200	

As you have probably correctly concluded, I am an auction junkie and, over the years, off and on, we have auctioned off a few Charlie Munger busts on Ebay. In 2020 we made it an annual event, which will last while we have Charlie Munger busts to auction off. The busts were made by a gifted bust maker in Rajasthan, India. We also commissioned him to make a few Warren Buffett busts. They came out great! One set of these rare Charlie and Warren busts are placed in the conference room at Berkshire Hathaway headquarters in Omaha and Warren loves them.

The terms are the same as all our other auctions. Bidding starts at $0.01 and there is no reserve price. In addition, free global shipping (usually by Fedex) is included.

The Dakshana Endowment

In 2013, at the suggestion of Advisory Board member Ruyintan “Ron” Mehta, we started the Dakshana Endowment. Since then, Dakshana’s donors have had a choice. They can designate their contributions to be used immediately on our Dakshana Scholar Program or it can go into the endowment. Only funds explicitly specified for the endowment go in there. Funds in the endowment are invested in a highly concentrated manner and managed by yours truly. And at the end of every year, 5% of the endowment’s value is spent towards the Dakshana Scholar Program in the following year.

Table 10. Dakshana's Endowment

2024 Dakshana Endowment Overview		
Cash and Marketable Securities on 12/31/23	$	1,922,521
Contributions by Donors:	$	283,209
Spending on Dakshana Scholar Program	$	(99,526)
Investment Gain (Loss)	$	988,591
Cash and Marketable Securities on 12/31/24	$	**3,094,796**

Ron seeded the endowment with a generous $50,000 contribution. The cost to support one scholar is $2500 and Ron figured that, right off the bat, the endowment would be able to fully support at least one new scholar completely every year.

We direct all the proceeds from the various auctions to the endowment. The good news is that the endowment is off to a robust start and is already able to support around 36 scholars a year *into perpetuity*.

Dakshana's Corporate Social Responsibility (CSR) Initiative

The Dakshana Valley campus is in Kadus Village in Pune district. It has always been Dakshana's goal to be a good neighbor and a force for positive change in the communities in which we operate. Several villagers are employed at Dakshana Valley and this has provided a small economic boost to the village.

Towards this end, in 2019, Dakshana deployed a teacher in Kadus village fully paid by Dakshana. Every year we identify several promising 5th grade students to be intensely prepared for the JNV Selection Test (JNVST) to possibly get admitted to JNV Pune. Typically, more than 14,000 5th graders take the JNVST in Pune district, trying to get one of 80 highly coveted seats. The success ratio is around 0.6%. The JNVs do not just take 80 kids from a given district. Each district is made up of blocks and Kadus Village and other neighboring villages falls in Khed Block. Based on population, only five students from Khed can get a seat each year at JNV Pune. Historically no students from Kadus Village had ever been accepted by JNV Pune. Since 2020, fifteen students from villages around our Pune campus, who were prepared by us, have been accepted by JNV Pune.

Dakshana has many ex-military officers and soldiers on our team. They have requested me to do more for military families. Over the years we've had a few ad hoc initiatives for kids from military families. In 2021 we began prepping the Kadus & nearby village kids for the Sainik school entrance test. There are 33 Sainik boarding schools across India run by the armed services to groom kids to be officers and soldiers in India's armed services. Since 2022, sixteen students prepped by us have been accepted by Sainik Schools. In 12th grade these kids will try to get accepted by the National Defense Academy, the West Point of India.

Table 12. Results of Dakshana's CSR initiative

In my widest dreams, I never expected anything close to the tremendous success Dakshana has had since it was conceived 19 years ago. The next few decades will be all about growing and scaling. We now have an incredible team, culture, leadership, brand, balance sheet and reputation.

With the power of compounding, I think we may be more amazed with what transpires in the next 19 years than the journey so far!

Warmly,
