Annual Report 2025

The Dakshana Foundation

Dear Friends:

Dakshana successfully completed its 19th full year of operations in 2025. Since inception in 2007, the IITs have accepted 4072 Dakshana Scholars (out of a universe of 6854) – a success rate of 59%. Not too shabby – considering that the IITs accept just 1.2% of all applicants. Since inception, 8154 of our scholars have been accepted by the IITs, NITs, AIIMS and various medical colleges (out of a total universe of 10108), an astounding 81% success rate!

In aggregate, in 2026, out of 467 Dakshana scholars who were prepared for the IIT entrance test, 293 made it – a success rate of 63%. In addition, 7 scholars from the 2025 batch who did not make it to IIT the first time, were accepted by the IITs on their 2nd attempt in 2026.

Many of our scholars who are accepted by the IITs end up declining the IIT seat and going to NIT (National Institute of Technology) instead. They typically do so to pursue a more desirable major. The NITs are just a tad below the IITs in quality and reputation. In 2026, 420 of our 467 engineering scholars were offered IIT and/or NIT seats – an incredible 90% acceptance rate! Since inception in 2007, Dakshana has *never ever* had a 90% IIT+NIT acceptance rate! We are not in Kansas anymore!

The Medical Stream

From the inception of medical coaching at Dakshana in 2016, out of a universe of 3254 medical stream scholars, 2597 have been accepted at various government medical colleges – a success rate of 80%. In 2026, out of a total of 444 Dakshana medical scholars, at least 383 were accepted by various government medical colleges – an eye popping success rate of 86%!

The eventual success rate of this batch will increase as some scholars go for the 2nd attempt in 2027. In addition, 29 scholars from the 2025 batch, who did not make it to government medical colleges the first time, were accepted by government medical colleges on their 2nd attempt in 2026.

The All India Institute of Medical Colleges (AIIMS) accepted 123 Dakshana medical scholars in their first attempt at NEET in 2026. AIIMS is the Harvard Medical School of India and accepts just 2257 medical students annually out of two million applicants! In 2026, Dakshana Scholars took 5.4% of all AIIMS seats! AIIMS has accepted 696 of our scholars (out of a universe of 3254) since we started medical coaching in 2016. This represents a success rate of over 21.4% versus a 0.1% national admittance rate – over 200 times the national average! All of our AIIMS stats are truly off the charts. The scholars have taken the cover off the ball with their ultra-high success at getting offered AIIMS seats. Congratulations to all the scholars, their families, the faculty, and Team Dakshana for all their hard work and sacrifices.

The Power of Incentives

> *"This is not charity. This is business:*
> *business with a social objective,*
> *which is to help people get out of poverty."*
>
> **- Muhammed Yunus**

From day one, Dakshana has always been run like a hardcore for-profit business. Thankfully, before Dakshana, none of our leadership, including myself, had any experience ever working at or running a non-profit. I did not need to have them un-learn anything. Dakshana's "profit" is measured in the social return on invested capital (SROI) that we get on our outlays.

> *"I think I've been in the top 5% of my age cohort all my life in understanding the power of incentives, and all my life I've underestimated it. And never a year passes but I get some surprise that pushes a little further my appreciation of incentive superpower."*
>
> **- Charlie Munger**

Our faculty is probably the only faculty on the planet where incentives are a large part of their overall compensation – and where high success rates lead to big bonuses. The higher our success rate, the more they get paid – and none is happier than me to pay them.

For-profit IIT coaching institutes care about getting the best possible ranks. Success rates are irrelevant to them as they do not advertise their ultra-low success rates. In fact, they try hard to hide their success rate. At Dakshana, we don't care much about a kid getting rank 10 (out of millions) or rank 100. What we care about is our SROI. How many of the kids we accepted got a NIT or IIT or AIIMS or other medical college seat? The success rate is of paramount importance.

We had to change the way our faculty thought about success. We initially faced resistance from them when we proposed a heavily incentive-linked compensation plan as they were accustomed to flat salaries. With reluctance, they went along and later realized that the comp plan allowed them to earn higher compensation based on results. Their comp changes significantly if 10 more kids make it or 20 more kids make it. Thus they put a lot of effort on the borderline kids.

Our 86% and 90% medical/engineering success rates this year reflects that intense focus on these borderline cases. This is a game of inches and pushing our borderline kids over the edge to get accepted by these elite institutions is of paramount importance.

Dakshana's entire senior management has thoughtfully-designed incentive plans which give them plenty of upside if they deliver. It is not unusual at Dakshana for half the compensation of an individual to come from various incentive bonuses. We pay very well and get more than our money's worth!

FCRA Renewed and Restored!

The Foreign Contributions (Regulation) Act (FCRA) in India controls foreign inflows to India-based NGOs. Dakshana India Education Trust Fund (DIETF) is a registered nonprofit in India that received its FCRA permissions quite a while back. These permissions expire every five years. Our most recent permission expired on June 8, 2024 and renewal was, surprisingly, denied.

Thousands of NGOs were denied renewal of their FCRA permission in the last few years for reasons that are still not clear to us. Several are ultra high-quality and ultra-clean NGOs like Dakshana. It took a lot of efforts, but our FCRA permission was finally reinstated in April 2026. It was a very difficult two years for Dakshana as we are heavily dependent on contributions from outside India for most of our operating budget. The India team went on a war footing to increase domestic contributions. Hats off to Annu Malik and Ajay Antony for doing a step function on our India-based donations.

We are eternally grateful to several large corporate donors in India like Godrej, Dmart, Narayana Healthcare and Bajaj without whose generous contributions we wouldn't have made it.

There is a silver lining here. We were forced to eliminate all of our subscale campuses where the per student costs were significantly above our baseline. The three campuses we are left with are all large. world class and cost-efficient:

1. Dakshana Valley – 600 beds eventually going to 2600 beds.
2. The Center of Excellence at JNV Bengaluru Urban (Munger Hall)
3. The Center of Excellence at JNV Pune

Without the FCRA challenges, we would have continued operating our sub-scale high cost campuses. Now we can funnel those resources into growing our larger campuses and further improve our SROI.

Now that the shackles have been removed, we are focused on scaling our larger campuses and getting even more economies of scale.

Phase 2 Construction at Dakshana Valley

The FCRA non-renewal required us to freeze our Phase 2 construction at Dakshana Valley in 2024. The $14 million of planned capex for Phase 2 will nearly double the scholar capacity at Dakshana Valley from 600 to 1150. This along, with our other facilities, will increase our annual graduating class size from about 900 to over 1450 in 2029! We are very excited about this. It is a game changer for Dakshana. Dakshana Valley will remain a perpetual construction site till it reaches its maxed out capacity of 2600 in a decade or so.

2025 Financial Overview

Dakshana is in very good financial shape. We ended 2025 with $32 million in liquid assets and virtually no liabilities or payables. We own the 109-acre Dakshana Valley campus free and clear. The cost basis of Dakshana Valley and all improvements is over $14 million. With over $46 million in assets and virtually no liabilities, Dakshana is in the best financial shape it has ever been in.

Table 1. Financial Overview

2025 Dakshana Financial Overview
(in thousands of US$)

Cash and Marketable Securities on 12/31/24:	$	28,819
Scholar Expenses:	$	(1,935)
Overhead Expenses:	$	(659)
Construction Expenses:	$	(13)
Contributions by Donors:	$	5,195
Net Investment/Forex Gain (Loss)	$	589
Cash and Marketable Securities on 12/31/25:	$	31,995

While we may appear to be drowning in dollars, the reality is not quite so rosy. We have over $30 million of capex ahead of us as we scale Dakshana Valley's capacity from 600 to 2600 beds.

Additionally, after Dakshana Valley's capacity rises to 1150, our recurring expenses will rise by around $1.3 million annually. Thus, by 2028, depending on inflows and investment gains, our liquidity may be far lower. We need your continued support!

Direct Scholar Expenses

In 2025, we spent about $2.6 million on the Dakshana Scholar Program, related corporate overhead, and construction. Of this amount, $1.9 million was spent directly on the Dakshana Scholar Program. Let's examine these scholar expenses in a bit of detail.

During 2025, we delivered the equivalent of 1113 scholar years of coaching. Of this number, 600 scholar years were for the 1-year program and 513 scholar years for the 2-year program.

Due to the FCRA issues, we had to reduce our scholar intake, which resulted in a 20+% reduction in our scholar years and some loss of scale. The average cost to support a scholar across Dakshana's various programs in 2025 was $2759. This number includes an allocation of $500/scholar for infrastructure. In the last 16 years, inflation has been rampant in India. I am thus very pleased with our $2759 all-in cost to support a Dakshana Scholar in 2025 vs. $2100 in 2009. Economies of scale, having our own faculty and delivering over half of the coaching at our own campus have all played a role in keeping our costs ultra-low.

Table 2. Dakshana Scholar Cost Data

Year	Cost/Scholar	Scholar Years
2007	$3,650	176
2008	$3,086	524

Corporate Overhead Expenses & Fully Loaded Cost/Scholar

Our corporate overhead in 2025 was $659,000. It is difficult to accurately segment scholar expenses vs. overhead expenses. For example, most of the management team at Dakshana Valley spends much of their time on faculty and scholar related issues, but they are 100% categorized as overhead. Our overhead cost are thus meaningfully overstated. Because of the direct nature of our programs, it may be more useful to look at the bundled cost/scholar in the future. Our overhead/scholar was $592, and the bundled direct scholar cost, overhead, and construction was $3351 in 2025. Permanently lifting a family from poverty for under $3400 is astounding.

*next year

**Med School Training began in 2016

Infrastructure cost of $400/scholar added from 2017 and increased to $500/scholar from 2020 onwards

It used to cost Dakshana around $7000 to produce a doctor or engineer. This has improved dramatically over the years – it was $3801 in 2025.

The 88% success ratio and loaded cost/scholar for 2025 will improve further after we get the 2nd attempt data for these students next year. We are not counting the other 12%, even though many of those kids did end up at a decent engineering college or with some type of science degree that led to a significant boost to their family income.

One of the best decisions I have made with Dakshana is to embrace formula-based giving from the outset. Like almost everything else of consequence in my life, the

formula was cloned. In 2006, Warren Buffett committed to annually giving away 5% of his Berkshire Hathaway shares to the Gates Foundation and the various foundations run by his kids.

For example, if he started with 400,000 shares of Berkshire, he would be giving away 20,000 shares the first year, 19,000 the second year, 18,050 shares the third year and so on. Because Berkshire is highly likely to increase its intrinsic value by more than 5% a year, not only would his giving increase over time, so would his net worth. *It is brilliant!* Warren could live to be 120 years old and still have shares to give away.

Channeling Buffett, we decided that when our net worth exceeded $50 million, my family would give 2% of our net worth to Dakshana every year. In the last 19 years my family has given around $30 million to Dakshana - and it felt like a non-event! Dakshana received significant sums and we never missed the money.

As an aside, Warren will be 96 in a few weeks and, earlier this year, he tweeked his giving plan for all his money to be given away in just eight years. His remaining $140+ billion fortune (that is still compounding) will all be recycled back to society by 2034.

Dakshana's Wonderful Family of Donors

We received $5.2 million in donations from our generous donors in 2025. I am grateful to our patrons for their generosity and wisdom.

And now, it's time for a short commercial break. You can make a gift to Dakshana here: www.dakshana.org/donate/. We accept all major credit cards, Paypal and Bitcoin. You can also send us a check (in US dollars, Canadian dollars or Indian rupees). And your gift is fully tax deductible. We can also set up automatic recurring monthly charges to your credit card. $230 or C$325 a month for 12 months fully supports one scholar. You can even pick the scholar you'd like to support.

Many employers sponsor matching gift programs that will match your charitable donations, including those made to Dakshana. Quite a few of our existing donors have taken advantage of these generous policies, including those at Google, Microsoft, Abbott Labs, EClinicalWorks, Genentech, ServiceNow, Intel, etc. To find out if your company sponsors a matching gift program, please check out this link: Employer Matching Programs.

Let's not forget all the goodies Dakshana offers for your generosity – naming rights, Buffett and Munger busts, amazing meals, rounds of golf and wallets with stock tips!

Naming Rights

Dakshana would love to offer you the opportunity to name a building or two in honor of your parents or a hero. This allows you to both commemorate their memory and support a worthy cause. We've already granted naming rights to 15 structures, and they're going quickly. The process is straightforward: by covering half the construction cost, you secure the naming rights for a structure, road, or lake of your choice. This opportunity won't be available for long. In the spirit of MLK, now is the time to honor your loved ones. Act now! Drop me a note at mpabrai@dakshana.org. Let's make it happen!

Donate your Beater Car. We'll even pick it up!

Through our partnership with CARS (careasy.org/nonprofit/dakshana-foundation) Dakshana can accept donations of cars, boats, RVs, and other property donations anywhere in the United States. It is simple. You get a tax deduction. CARS picks up the vehicle (even if it does not start!). Please call CARS at +1.855.500-RIDE (+1.855.500-7433), or us at +1.512.999.7110, or email Kimberly Engleman (ke@dakshana.org) for more information.

The donated item will be picked up from a location of your choice at a time of your choosing at no cost to you. You will receive the maximum legal tax deduction and possibly a partial cash payment. This is a great way to get rid of that beater car and help a great cause!

Ebay Lunch Auction

Our 17th annual lunch/conference call/busts/golf auctions will be held in the Fall of 2026 on Ebay. In the true spirit of market-driven auctions, the bidding will start at $0.01 for both, with no minimum. The lunch auction winner will get my not-so-old wallet as well. It is rumored that there may be a stock tip in there (with no reps and warranties!).

The guidelines remain the same. The winner can bring up to seven folks with him or her. The lunch will take place in Austin, Texas, or in any of India's metro cities, or another mutually agreeable alternate location. Anything is fair game to discuss, except specific stocks. Of course, you can ask about the stock tip. And I'll personally pick up the tab. In the true spirit of market-driven auctions, the bidding will start at $0.01, with no minimum.

I very much enjoyed breaking bread with the 2025 lunch winner Nirav Shah and his business partner Samir and their teenage boys. Nirav got my not-so-old wallet as well. It is rumored that there was a stock tip in there (with no reps and warranties!).

Table 6. Ebay Lunch Results – 2010 to Present

Zoom Video Call Auction

The difficulty with the lunch auction is that meals can only take place in limited geographies. Thus, a few years back we started auctioning off an annual conference call with me with all proceeds going to Dakshana. The Zoom call format allows anyone from anywhere on the planet to bid and participate.

This auction is designed to level the geographic playing field. Anyone can bid on Ebay. The Zoom video call, which will be arranged at a mutually agreeable time, can have up to seven participants. I will give a stock tip on the call (with no reps or warranties!) and will answer any questions related to that stock tip (or anything else the participants would like to discuss). The only topic off limits is discussions on any current portfolio holdings.

These lunches and Zoom calls have led to my meeting some wonderful folks over the years. Many have become friends and some of these have become especially close friendships. I am grateful for all the benefits I have received from these interactions and relationships. It is a very high-quality crowd.

As you have probably correctly concluded, I am an auction junkie and, over the years, off and on, we have auctioned off a few Charlie Munger busts on Ebay. In 2020 we made

it an annual event, which will last while we have Charlie Munger busts to auction off. The busts were made by a gifted bust maker in Rajasthan, India. We also commissioned him to make a few Warren Buffett busts. They came out great! One set of these rare Charlie and Warren busts are placed in the conference room at Berkshire Hathaway headquarters in Omaha and Warren loves them.

The terms are the same as all our other auctions. Bidding starts at $0.01 and there is no reserve price. In addition, free global shipping (usually by Fedex) is included.

A Round of Golf with Mohnish

As you have gathered by now, I am an auctions junkie! I decided to take a bullet for the team and auction off a round of golf with me with all proceeds going to Dakshana. I am a member of Barton Creek Country Club in Austin, Texas and my club has four exceptional golf courses, including two designed by Tom Fazio and one by Arnold Palmer. Bidding started at 1 cent with no reserve and the winner got to play a round of golf with me at any of the Barton Creek courses. The winner of the 2025 golf auction with the winning bid of $18,500 was Dr. Amandeep Bhalla, who is an even bigger eBay auctions junkie than I am.

Dr. Bhalla and I had a great time at Fazio Canyons golf course. Another die hard golf nut, Girish Shilamkar, had technical difficulties during the bidding and I decided to take two bullets for Team Dakshana and play a round with him if he matched the winning bid, which he was happy to do. I had a great time with Girish, who flew in from Pune (India) just for the golf!

The golf auction is planned to be offered annually. Please follow me on X (@mohnishpabrai), where I'll announce all the auctions.

2025	$18,500	$37,000	Dr. Amandeep Bhalla and Girish Shilamkar

All of the 2025 auctions brought in $176,909, which was added to the Dakshana Endowment.

The Dakshana Endowment

In 2013, at the suggestion of Advisory Board member Ruyintan "Ron" Mehta, we started the Dakshana Endowment. Since then, Dakshana's donors have had a choice. They can designate their contributions to be used immediately on our Dakshana Scholar Program or they can go into the endowment. Only funds explicitly specified for the endowment go in there. Funds in the endowment are invested in a highly concentrated manner and managed by yours truly. And at the end of every year, 5% of the endowment's value is spent towards the Dakshana Scholar Program in the following year.

Table 11. Dakshana's Endowment

2025 Dakshana Endowment Overview		
Cash and Marketable Securities on 12/31/24	$	3,094,796
Contributions by Donors:	$	222,414
Spending on Dakshana Scholar Program	$	(134,000)
Investment Gain (Loss)	$	(355,090)
Cash and Marketable Securities on 12/31/25	$	**2,828,120**

Ron seeded the endowment with a generous $50,000 contribution. The cost to support one scholar was $2500 then and Ron figured that, right off the bat, the endowment would be able to fully support at least one new scholar completely every year.

We direct all the proceeds from the various auctions to the endowment. The good news is that the endowment is off to a robust start and is already able to fully support 57 scholars a year *into perpetuity*. As you can see in Table 12, that number is likely to continue to grow meaningfully over time. The endowment is now fully supporting 6% of our annual scholar intake, which is excellent.

Dakshana's Corporate Social Responsibility (CSR) Initiative

The Dakshana Valley campus is in Kadus Village in Pune district. It has always been Dakshana's goal to be a good neighbor and a force for positive change in the communities in which we operate. Several villagers are employed at Dakshana Valley and this has provided a small economic boost to the village.

Towards this end, in 2019, Dakshana deployed a teacher in the Kadus village fully paid by Dakshana. Every year we identify several promising 5th grade students to be intensely prepared for the JNV Selection Test (JNVST) to possibly get admitted to JNV Pune. Typically, more than 14,000 5th graders take the JNVST in Pune district, trying to get one of 80 highly coveted seats. The success ratio is around 0.6%. The JNVs do not just take 80 kids from a given district. Each district is made up of blocks and Kadus Village falls in Khed Block. Historically no students from Kadus Village had ever been accepted by JNV Pune. Since 2020, Twenty two students prepped by us have been accepted by JNV Pune.

Dakshana has many ex-military officers and soldiers on our team. They have requested me to do more for military families. Over the years we've had a few ad hoc initiatives for kids from military families. In 2021 we began prepping the Kadus & nearby village kids for the Sainik school entrance test. There are 33 Sainik boarding

schools across India run by the armed services to groom kids to be officers and soldiers in India's armed services. Since 2022, twenty six students prepped by us have been accepted by Sainik Schools. In 12th grade these kids will try to get admitted into the National Defense Academy, which is the West Point of India.

In my widest dreams, I never expected anything close to the tremendous success Dakshana has had since it was conceived 19 years ago. The next few decades will be all about growing and scaling. We now have an incredible team, culture, leadership, brand, balance sheet and reputation.

With the power of compounding, I think we may be more amazed with what transpires in the next 19 years than the journey so far!

Warmly,
