Please write essay (in English or Hindi) between 300 - 500 words which begins with:

I'd like to become a Dakshana Scholar and hopefully attend IIT because I want to become an engineer. This Dakshana scholar is very toughest institution. This depends on only hard work of students to get their goal. This helps the students imbibing the fundamental concepts of clarity. For getting a better rank in IIT-JEE, a good platform is required. I think that for this type of platform, guidance Dakshana provides.

Dakshana is the best institution of India - for those students who are more labourious and have self thinking power and having lack of money for their study. This provides a comprehensive scholarships which includes 100% coaching fees and books which helps the students who have no money to attend other coaching centre for study to prepare for competition.

I want to serve our country to research something which will be better our

our country and countryside people

After becoming a Dakshna Scholar, I would ~~effort~~ to be an engineer to serve country and people of country who are facing problem in lack of a better successful guidance. ~~in~~

To become An IITian - I would be ~~discovers~~ successful thing which are useful for country to develop science and Technology to improve Technical area.

Dakshna Foundation is the best option for all J.N.V. student passed 10th class in this year for appearing and selected in dakshna foundation examination.

In this ~~institute~~, The teacher is very good and they have experienced better knowledge.

At last - I think that it will be good for me and prove myself.

My desire is to get our goal from this supportness of Dakshna in IIT-JEE at force of my handworking to prepare exams and to serve the country in different area.
