The Dakshana Foundation Application to Become a Dakshana Scholar

Dakshana Scholars are brilliant, but impoverished students who aspire to attend The Indian Institute of Technology (IIT), but cannot afford to be coached professionally by a world-class IIT JEE coaching institute. The Dakshana Foundation provides comprehensive scholarships to gifted/impoverished adolescents who meet our criteria. These scholarships include 100% of coaching fees and books. In order to be eligible to apply for becoming a Dakshana Scholar, you must be invited to appear for and qualify in the Grand Dakshana Selection Test (GDST). The decision of Dakshana in this regard is final.

Dakshana reserves the right to validate the information provided through various sources including NVS records, Principal and JNV staff interviews, peers, neighbours, school alumni and direct verifications. Should any information be found to be wilfully falsified, Dakshana reserves the right to deny acceptance as a Dakshana Scholar and/or terminate coaching at any time after it has started.

I hereby do attest that all of the information submitted in this application is correct and authentic and that I meet all of the criteria mentioned to apply for being named a Dakshana Scholar:

Please write essay (in English or Hindi) between 300 - 500 words which begins with:

I'd like to become a Dakshana Scholar and hopefully attend IIT because I want to give amazing things to the world. It comes new time and there is increase in population and it will continue by time. People demand more and more thing from world. It is increase the population but the many nonrenewable resources are decrease by time and one day for next generation resources are only past. For not to face these problem we need something special.

People need energy saving thing and things they are recharge by e it self. we should give the energy to the any machine or Automobiles only one time. There is no need to give energy to it again because it recharge by energy when it use energy. In our world they are many thing they need like these mechanism. For example automobiles, fan, tubelite and

and other lot of things, only these mechanism in the equipment or other thing useful for saving of energy. I agree that by these mechanism we can full fill the people demand and It is good thing that by these mechanism lot energy is saved and For the next generation resources are present they did not become past. I know IIT gives proper education to full fill my dream and it will only possible when I become Dakshana scholar.

I want to join IIT ear the good money. and I also want to help the people.

(You can use this form or a separate piece of paper. Please submit the essay in your own handwriting)
