The Dakshana Foundation Application to Become a Dakshana Scholar

Full Name KAUSHALENDRA KUMAR

Dakshana Scholars are gifted, but impoverished students who aspire to attend The Indian Institute of Technology (IIT), but cannot afford to be coached professionally by a world-class IIT JEE coaching institute. The Dakshana Foundation provides comprehensive scholarships to gifted/impoverished adolescents who meet our criteria. These scholarships include 100% of tuition, boarding, lodging, books and incidentals. In order to be eligible to apply for becoming a Dakshana Scholar, ALL of the following conditions must be met:

1. You must qualify in the Dakshana IIT-JEE selection test and personal interview. The decision of Dakshana in this regard is final.
2. Must have atleast a 75% average in Physics, Chemistry and Mathematics for every year (9th through 12th standard) that the applicant has completed.
3. The total typical household monthly income (total income of all members of your immediate family) is under Rs. 7,000 per month.
4. The total assets of your immediate family (including any savings, real estate or property) is under Rs. 1 Lakh.
5. The Dakshana Foundation believes that the beneficiary of aid today is the donor of tomorrow. We believe that helping gifted, impoverished students get a world-class education has a very high return on invested resources to the individual, the family and the entire community. Dakshana Scholars have a voluntary moral (but not a legal or contractual) obligation to donate 10% of their monthly lifetime earnings back to the Dakshana Foundation to fund future Dakshana Scholars. They could also choose to give to any other charity of their choice. Or they can choose to give nothing. The choice is yours and we accept whatever you decide. After a few years, we fully expect Dakshana to be sustained and grow from this voluntary giveback and help an increasing number of impoverished and gifted children every year.

PLEASE DO NOT LEAVE ANY BLANK COLUMNS IN THE QUESTIONS BELOW; PUT "NIL" or "0" WHERE IT IS RELEVANT.

Application

KUSHALGNORA KUMAR

first method to ~~do that~~ achieve that, & it is none other than the IIT itself. But having an IIT name or doing great labour are the not only things to crack such a high level competitive exam like IIT. Cracking IIT needs something else & that is all which I could not afford to my own. The Dakshana Foundation seems to me the best way towards my end. I like to become a Dakshana scholar because I am not capable of get admissioned in high demanding institutes for cracking IIT. I am highly obliged to this Dakshana Foundation that it has come forward to help the Navodaya students who are generally the like students by providing them a 100% scholarship opportunity of free IIT JEE preparation, coaching on the basis of their merit, so that they could rise, can glow & could make their future bright. The Foundation provides really a very good environment, materials as well as the best faculty which are a must & expensive requirements to crack IIT.

I am sure, what this Institution is doing is really very good & appreciable & would lead the country towards a better future with a collection of bright minds all around.

(You can use this form or a separate piece of paper. Please submit the essay in your own handwriting)

INT IN APPLICATION

Please write essay (in English or Hindi) between 300 - 500 words which begins with:

I'd like to become a Dakshana Scholar and hopefully attend IIT because today is an era of stiff competition for success & being ahead from others. In India the science students which comprises a huge portion of the countries youth greatly prefer to become an IITian. And in fact one says that the IITs today has become a trade of craze among the Indians & among the Indian youths, then it would be no more exaggeration than the reality.

And I am also not an exception of that. Being a science student my aims are quite huge & often dream^{ed} to become a millennium man or a well-defined object among commoners but to become a scientist, so that I could utilise my curiosity as well as the knowledge to with all my extra efforts what I can do to bring into practice certain rare & very useful laws & things into practice. My aim is to do my best for the welfare of mankind & for their lives using my pre-mentioned wealth.

But the question is how can I do such a large no. of things?, for here I am ~~also not~~ know the first & best method or the
