Please write essay (in English or Hindi) between 300 - 500 words which begins with:

I'd like to become a Dakshana Scholar and hopefully attend IIT because I came to know that Dakshana is a institute which can help me to crack the IIT. As I belong from a middle class family, my family can't afford to sent me to IIT coaching institute. My dream of becoming an engineer can only fulfilled by Dakshana Classes as the institute provides the students free coaching. I want to be a Dakshana Scholar, so that I can learn basic to complex of everythings that will help me to crack IIT by becoming an Dakshana Scholar. Really Dakshana Foundation provides excellent facilities to all the talented students, who come from a poor background, that their parents can't afford for their study in private coaching institute. As N.V.S helps in all round development of a student and within this Dakshana Foundation contributes to the development of Indian Education System. Really Dakshana Foundation is the source of light for students like us, who aspired to become a well-settled engineers.

I want to fulfill my parent's dream by becoming an successful engineer as they always dreams for me. And the Dakshana foundation can provide me the best ways for achieving my goal.

In India there are many challenges that it should overcome. Poverty is great challenge in India due to which many talented students are not getting the proper education that deserve. This indirectly or directly leads to the slows down the process of development in the countries like India. I think this Dakshana foundation contributes a lot to overcome this type of challenge in India. It means that Dak. foundation contributes a lot to make the Indian Education System, stronger. By becoming an successful engineer, I want to do something for my society. I want to contribute my best to the society. I want to help the people of my society by sharing my best knowledge. I think this will have a positive effect to develop our country.
