Please write essay (in English or Hindi) between 300 - 500 words which begins with:

I'd like to become a Dakshana Scholar and hopefully attend IIT because when I was in 6th Standard our class teacher asked us that in future what you would like to be and for the first time I had heard about IIT. And after that it had become my great passion to know about it. But as days and years passed the destiny had given me a chance to be a part of Dakshana foundation and I had given my best. And finally the result was declared. For me it's not only a simple coaching but it's a stepping stone towards success. This scholar has given a new life to our dreams which might not be possible. It also gives me a precious gift as a medium of coaching which my family can't be able to hire for me which would be beneficial for my cooperative future life. By being Dakshana Scholar I'll get lot of things to know which I shall never know at my State. IIT is

the best institutions for those students who want to be engineers. It has also shown a great path for many youngsters who want to be successful persons in their life. I would definitely like to attend this course because for this course people are trying very hard and our country is also trying their level best for future citizens which means us. They are providing lots of money so that we can sufficiently read and make our life better. It's our duty to cooperate with them. By becoming a Dakshana Scholar I can help the government and it is the best way to do something in life. I would like to join this course because I would like to be an engineer who works for great companies. I would like to know how it feels when we stand on our own feet and there is no one to stop us for our work. I also want to experience a great and successful life.

(You can use this form or a separate piece of paper. Please submit the essay in your own handwriting)
