Please write essay (in English or Hindi) between 300 - 500 words which begins with:

I'd like to become a Dakshana Scholar and hopefully attend IIT because I want to accomplish my aim of becoming an IITian. After doing my B-Tech I want to pursue M-Tech in MIT and fulfil my ultimate aim of solving the mystery behind the origin of creation. I want to prove that light is the basis of creation, that is I want to prove the presence of almighty (Allah). However it is like a dream for me as I am a physically challenged boy and my financial background is weak. A major part of my father's income is spent in the maintenance process. He has to fulfil the requirements of my grandparents like the medicines. Also he has to spend on the education of my brothers and sisters. This has made the overall saving very low. As a result of this I am not in a state to take coaching from the world class coaching institutes.

Also I belong to a remote village. Thus we do not have much knowledge about the education procedures. Moreover my father has been spending a lot for the improvement of my defected leg, but in vain. So all these conditions has made it very difficult for me to compete in the national level competition of Joint Entrance Examination (J.E.E). In such condition

(You can use this form or a separate piece of paper. Please submit the essay in your own handwriting)

Dakshana has strived as an angel in my life and for those who are also like me or even worse.

As I have mentioned, I belong to a remote village. So after becoming an IITian, I want to do something for the upliftment of my village.

After all, I promise that on getting into Dakshana, I would use all the resources in the best possible way. Also, I would follow all its rules and regulations. Now since I want to defeat and surpass ones and all of present, past and future, I also assure to be the topper and bring name and fame to the institution.

And above all I promise to fulfil my commitment of solving the mystery behind the origin of creation and making Dakshana, the IITs and my country eternal. For I want to be someone more than Einstein.
