Please write essay (in English or Hindi) between 300 - 500 words which begins with:

I'd like to become a Dakshana Scholar and hopefully attend IIT because ^{qualifying} IIT is my hope. I want to be a IITian and try my level best for new technology about space. I want to convert my dreams in to reality. I was not aware about IIT but there was an unrestrictable curiosity. Dakshana was an opportunity for a boy of a rural area who had never been out of his district but was dreaming for IIT under claps of a rural area. My father had lost his father before his birth still he tried and ~~was~~ became an organiser and that service helps to continue my family. As my father tried and got his level best I will be an IITian and serve my family and country. That's why I tried and got in to Navodaya which created my hopes alive. Then in 10th I tried and topped the class (with 10 grade point). My dream

was to get IIT and to be an IITian. When I came to know that DAKSHANA was a leading institution to give an opportunity to the poor to qualify IIT. As the opportunity came I became overwhelmed and tried my level best to get in to the DAKSHANA.

It took me out of a slum and generated new hopes. I am hopeful to attend IIT and also qualify for it and change my dreams in to reality. When I think about our position and the rural India. I get disappointed. That inspired me to attend IIT and wish to fulfil that ambition I would like to join DAKSHANA foundation. When I will be an IITian I will contribute my best for development of rural India and the student like me whose talent is getting submerged under the rural slum.
